ALL NEW. ALL MACK.

The reimagined Mack Anthem[®] combines unparalleled performance with the hardworking legacy that made it legendary. From urban streets to rural routes, Anthem delivers premium driver comfort, next-gen maneuverability, and agile protection through every shift.

PRECISION
ENGINEERING
MEETS REGIONAL
DEMANDS.

THIS IS THE NEW STANDARD.

Anthem is a local workhorse, a revolution in safety, performance, fuel-efficiency, and sometimes, a home away from home. But most of all, it's what gets the job done. This is the new standard of regional haul.

PURPOSE-DRIVEN
CAB CONFIGURATIONS.

THIS IS THE NEW STANDARD.

Day Cab

113" BBC. 12'6" or 13'6" overall height with roof fairing.

44-Inch Mid-Roof Sleeper

157" BBC. 13'6" overall height with roof fairing.

64-Inch Mid-Roof Sleeper

177" BBC. 13'6" overall height with roof fairing.

All Mack Anthem® configurations shown with optional roof fairing.

ENGINEERED TO OUTMANEUVER.

THIS IS THE NEW STANDARD.

In regional haul, obstacles aren't the exception—they're the expectation. The Mack Anthem® represents a turning point in maneuverability—where every part of the truck works together to enhance handling and responsiveness.

Precision where it counts.

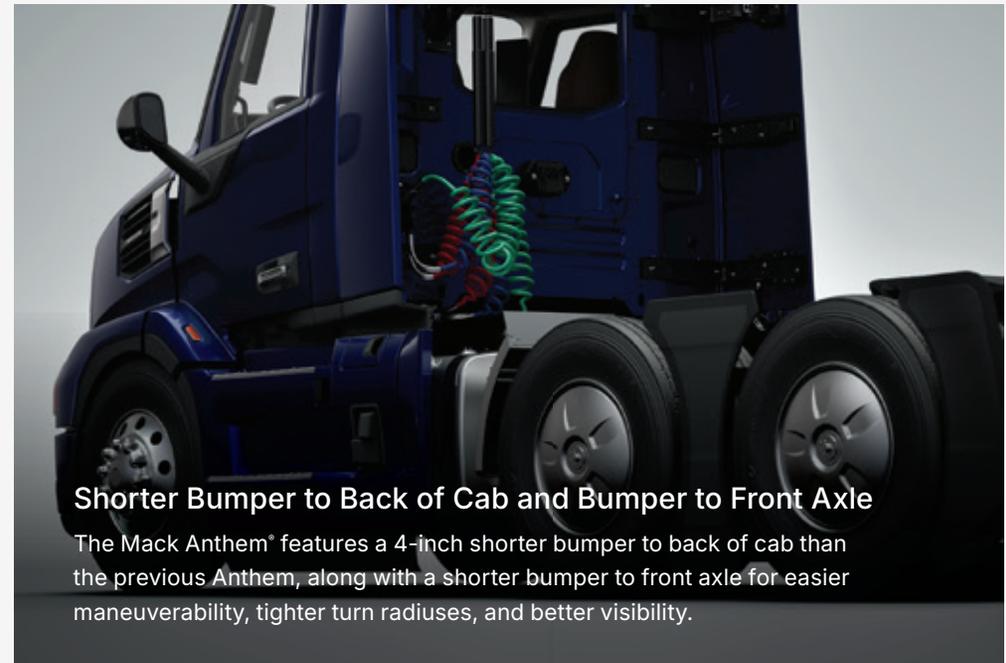

Available Mack® Command Steer

This driver-assist technology uses an electric motor torque overlay to make low-speed maneuvering effortless while providing road vibration dampening at higher speeds for improved road feel.

Available Oversteer Guidance

Oversteer Guidance applies electric torque assistance when rear wheels lose traction, automatically correcting steering to maintain lane position and reduce risks of road departure or collisions with oncoming traffic.

Shorter Bumper to Back of Cab and Bumper to Front Axle

The Mack Anthem® features a 4-inch shorter bumper to back of cab than the previous Anthem, along with a shorter bumper to front axle for easier maneuverability, tighter turn radii, and better visibility.

Higher Approach Angle

Regional haul trucks routinely face steep hills, road debris, speed bumps, and loading docks. The Mack Anthem can be configured for an increased approach angle to tackle obstacles more easily.

DYNAMIC POWER.
INTELLIGENT
PERFORMANCE.

THIS IS THE NEW STANDARD.

The future of regional haul isn't just about going faster—it's about moving smarter through routes where performance determines profits. The Mack Anthem® tackles this challenge with cutting-edge aerodynamics and a fuel-efficient powertrain that doesn't sacrifice power.

Aerodynamics

1. Wider Cab

The redesigned cab offers 9 inches of additional interior width that streamlines airflow and creates a spacious driver environment.

2. Redesigned Hood

With precision-engineered contours and optimized airflow channels, this hood was designed for aerodynamics and increased visibility.

3. Inset Bulldog

Recessed bulldog hood ornament reduces wind drag while keeping the iconic Bulldog front and center.

4. Aero Windshield

Improves fuel economy, wind noise dampening, and visibility while adding strength to the cab.

5. Front and Rear Wheel Closeouts

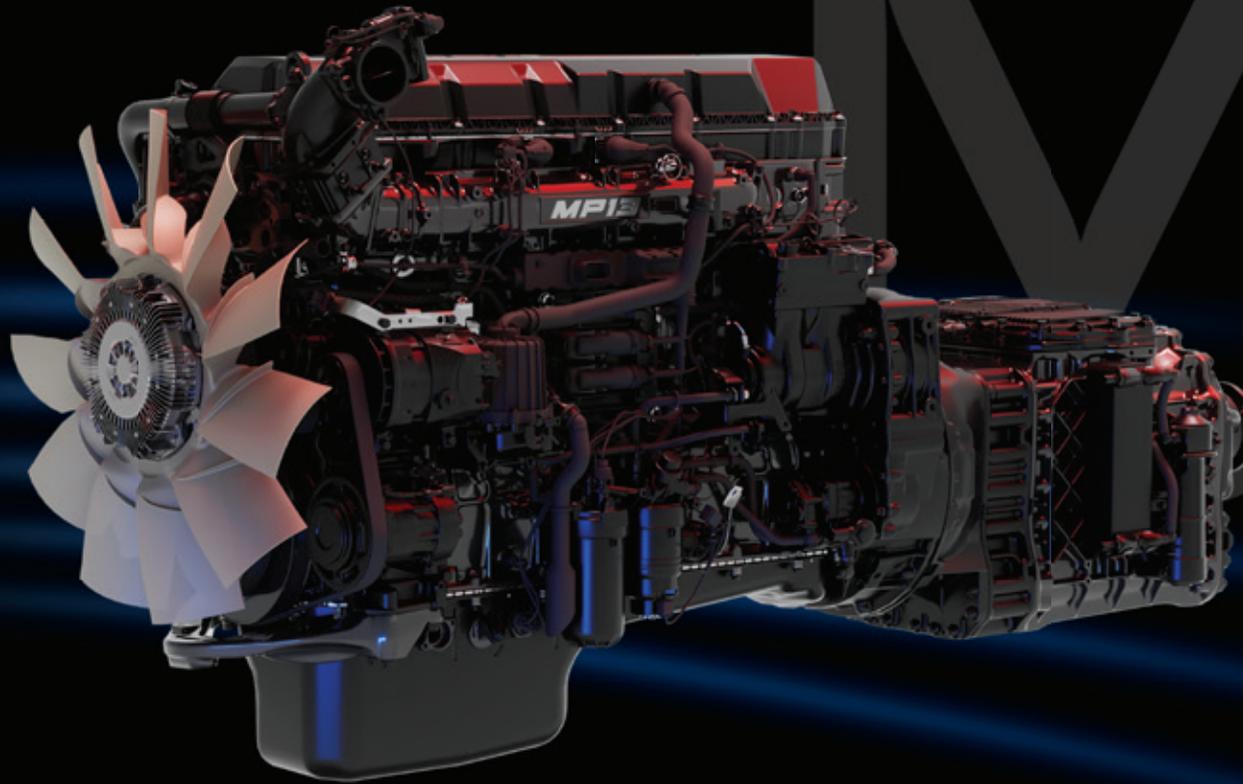

Create a clean aerodynamic flow to push air around the wheels.

6. Chassis Fairings

New fully-enclosed cab skirt and chassis fairing smooth airflow with covered fuel and DEF tank access.

7. Cab Side Deflectors

An optional streamlined design improves performance by enabling smoother air flow from the cab to the trailer.

Integrated Powertrain

Greater Power

With the potential to deliver up to 515 hp for highway efficiency and up to 1,950 lb–ft of torque for demanding applications, the MP¹³ comes in various ratings to power any haul. Choose the MP¹³HE for maximum efficiency or the MP¹³ for versatile power across a variety of terrains.

Greater Fuel Efficiency

Engineered for exceptional fuel economy, Anthem's MP¹³ engine and updated transmission deliver 3% better efficiency than the MP⁸. Combined with the boost from exterior aerodynamic enhancements, this gives Anthem a total of 10% reduction in fuel consumption.

Dynamic Overdrive

Specially engineered for the MP¹³ engine, the 13-speed Dynamic Overdrive technology intelligently shifts between Economy+, Economy, and Performance modes, delivering optimal efficiency while enhancing startability, reverse speed maneuverability, and hill climbing.

Enhanced Engine Brake

An updated engine brake curve gives the Mack PowerLeash™ engine brake the capability to deliver maximum braking power.

New Mack *mDRIVE*[™] Transmission

Mack's industry-leading automated manual transmission expands driver base, reduces costs, and delivers the smoothest shifting around.

New Mack *mDRIVE*[™] HD Transmission

This heavy-duty-capable transmission provides gearing for low-speed applications and improved startability for substantial loads while maintaining proper gearing for fuel efficiency at speed.

mDRIVE[™]

mDRIVE[™] HD

Enhanced Transmission Electronics

mDRIVE™ utilizes new hardware sensors and valves to improve gear shifting performance.

New Clutch Design

A redesigned clutch features a new disc, clutch housing, and dampening control system for enhanced durability.

30% Faster Shifting

The optimized transmission design provides shifting that's faster and smoother than ever.

COMFORT WITHOUT COMPROMISE.

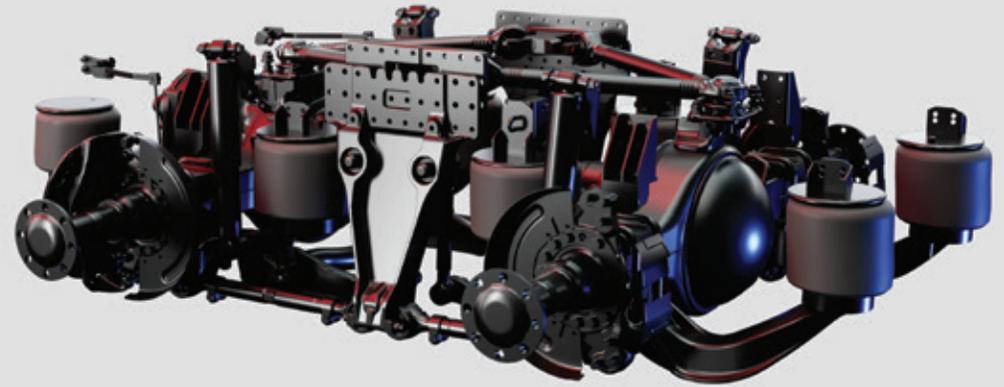

THIS IS THE NEW STANDARD.

Designed for the Driver

Mack Anthem's cab design and driver environment are built around the way work gets done on the road, keeping drivers comfortable, safe, and focused all day long.

With a goal of transforming the cab environment, every element in Mack Anthem® has been thoughtfully engineered with driver input, creating a space where technology serves human needs and where long hours translate to sustained productivity.

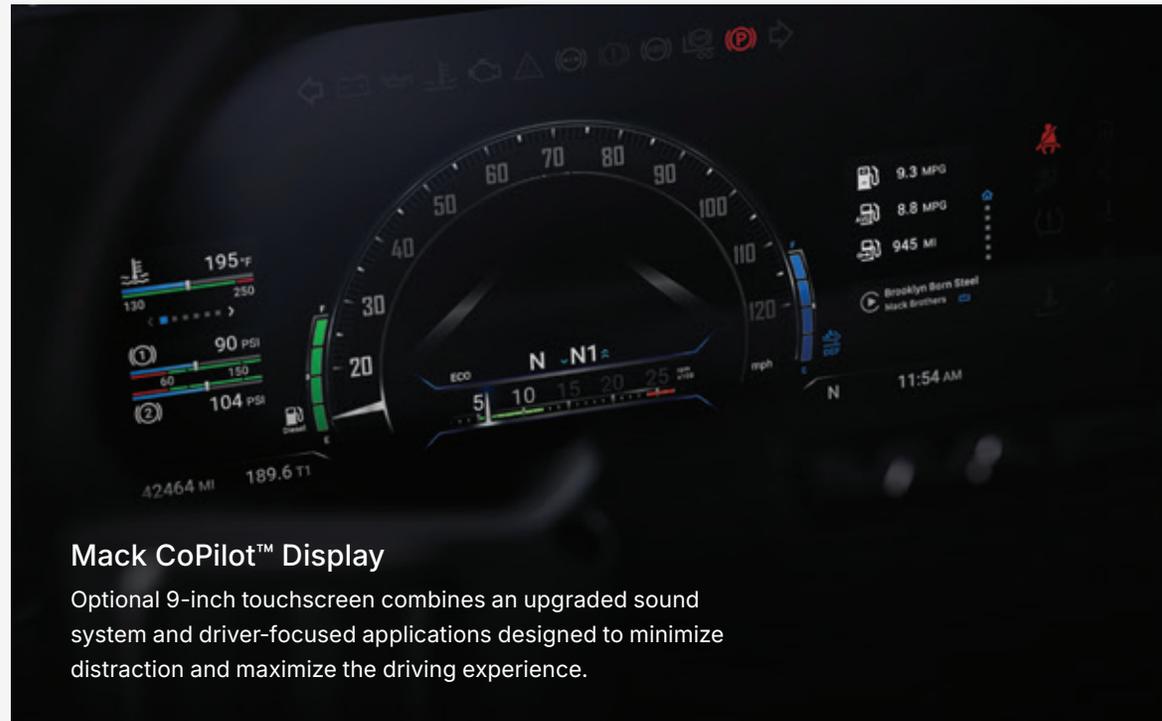

MaxRide™ Air

Advanced suspension utilizes electronically controlled rear suspension with eight tuned airbags to provide the most stable and best ride ever on a Mack Truck.

Stalk-Located *mDRIVE*™ Controls

Positioned for easy access, the shifter allows for smooth, intuitive gear changes without taking hands off the wheel.

Mack CoPilot™ Display

Optional 9-inch touchscreen combines an upgraded sound system and driver-focused applications designed to minimize distraction and maximize the driving experience.

Mack® Command Steer

Available Command Steer delivers up to 85% reduction in steering effort and 30% less strain, giving drivers precise control in all conditions.

The image shows the driver's perspective from inside a Mack truck. The steering wheel is prominent in the center, featuring a flat-bottom design with a silver and black finish. The top of the wheel has the 'MACK' logo and 'AIRBAG' text. The dashboard and center console are visible, including a large infotainment touchscreen on the right side displaying a music interface. The background shows a blurred street scene through the windshield.

Flat-Bottom Steering Wheel

A flat-bottom wheel allows more room where it counts. Smart steering wheel buttons access infotainment, cruise control, CoPilot™ Display navigation, headlight and marker light interrupter switches, and phone controls.

Infotainment Display

Optional 9-inch touchscreen combines an upgraded sound system and driver-focused applications designed to minimize distraction and maximize the driving experience.

Spacious Interior Cab

Mack Anthem® delivers an all-new cab with a 9-inch wider interior space, providing a spacious environment for drivers.

Standard Wide Base High-Back Seat

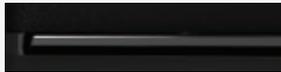

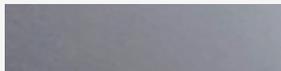

Designed for all-day comfort, Mack Anthem's seating keeps drivers refreshed on long hauls and features options for heating, cooling, and massage.

ELITE TRIM SHOWN

Customize Your Interior

Mack Anthem® is built for every kind of ride—and designed for the way drivers work. Choose from a range of premium trim packages, sleeper configurations, and smart storage solutions to create a truck that fits every drivers' needs. Interior options for Anthem are divided into three levels, from no-frills to all the comforts of home in the Elite.

	Comfort Trim	Preferred Trim	Elite Trim
1. Door Panel	 Dark Airforce Gray	 Dark Airforce Gray	 Canyon Brown
2. Door Panel Accent Trim	 Bold Black	 Light Gun Metal	 Light Gun Metal & Wood Grain
3. Steering Wheel	 Bold Black Rubberized Foam	 Bold Black Leather & Bold Black Perforated Leather	 Bold Black Leather & Canyon Brown Perforated Leather
4. Dash Topper	 Bold Black	 Dark Airforce Gray	 Canyon Brown
5. Dash Highlight Accent	 Gloss Black	 Satin Finish Metallic	 Satin Finish Metallic & Wood Grain
6. Interior Panels & Cabinets	 Dark Airforce Gray	 Dark Airforce Gray	 Canyon Brown

Configurable Options for Sleeper Cabs*

On-the-Road Amenities

A spacious interior with an optional reclining bunk gives drivers the comfort they need to feel at home.

Customizable Cabins

Modular sleeper environments are configurable for as much or as little as drivers need. Add storage cabinets, workspace, and under-bunk bins.

Flexible Work Space

Versatile pull out surfaces behind the driver and passenger seats create a comfortable space for a meal or catching up on emails.

Sleeper Windows

Windows feature self-contained, built-in shades that block 100% of light. The screened windows tilt out to let air in and keep rain out.

Sleeper Control Panel

Access power outlets and USB ports and control the sleeper stereo, interior lighting, and high-performing HVAC from one convenient panel.

*Available on 44-Inch Mid Roof Sleeper and 64-Inch Mid Roof Sleeper configurations only

A REVOLUTION IN SAFETY.

THIS IS THE NEW STANDARD.

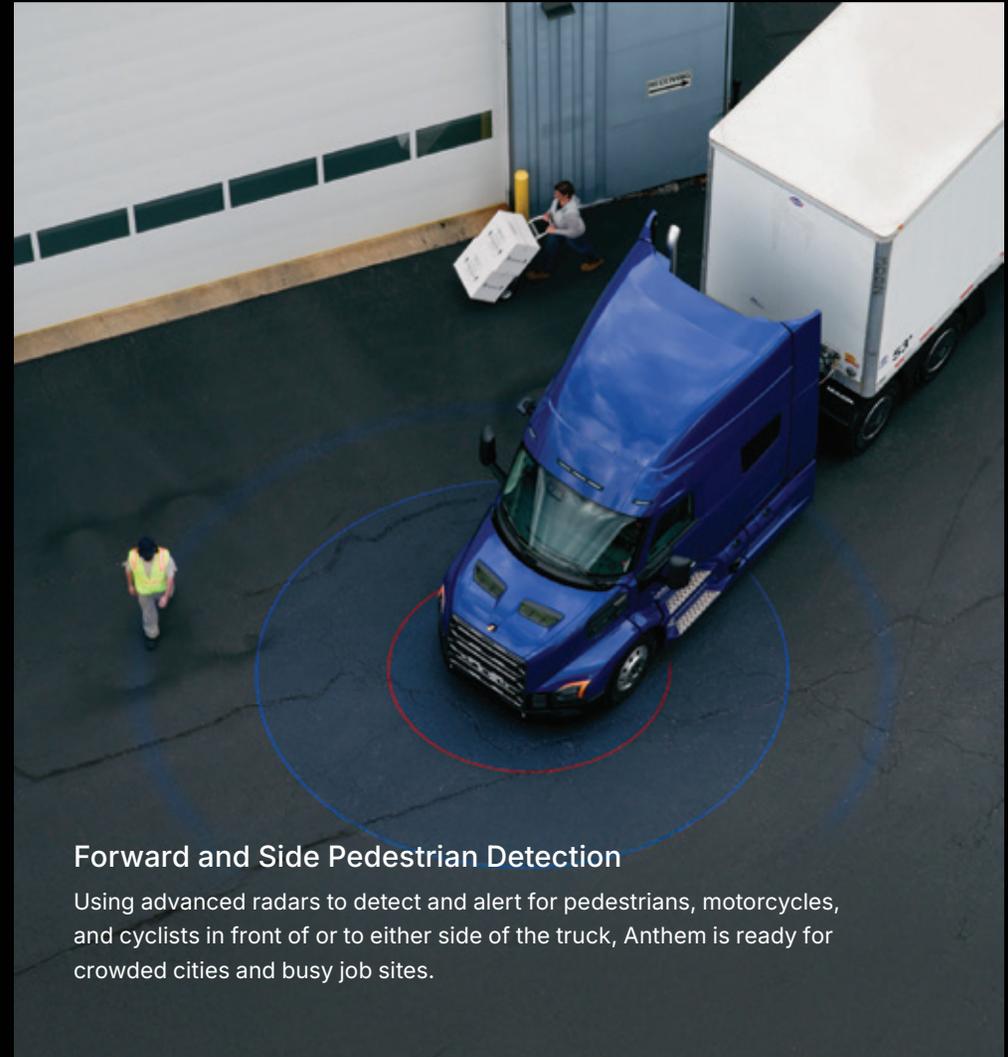

Safety

Mack Anthem® redefines safety with advanced proprietary collision-mitigation technology, durable construction, and smart features that keep drivers protected mile after mile.

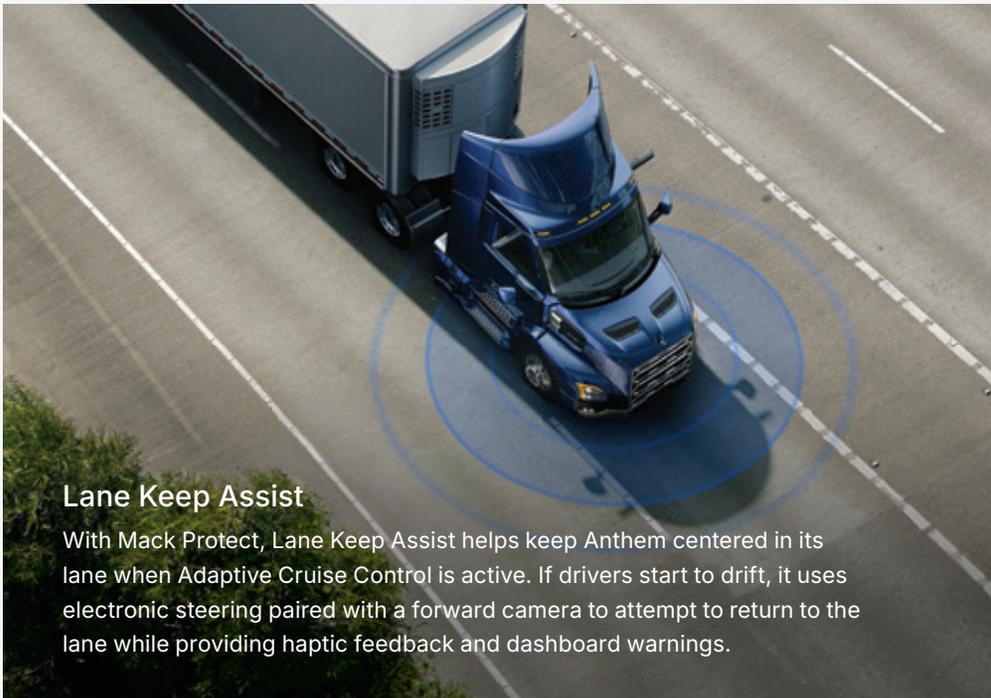

New Mack Protect

Mack Protect uses radar and camera technology to detect hazards, alert drivers, and intervene with engine control, braking, and steering to prevent collisions. Available in three tiers (Protect, Protect Pro, and Protect Premier), these packages let dealers and drivers choose the appropriate level of protection for their needs.

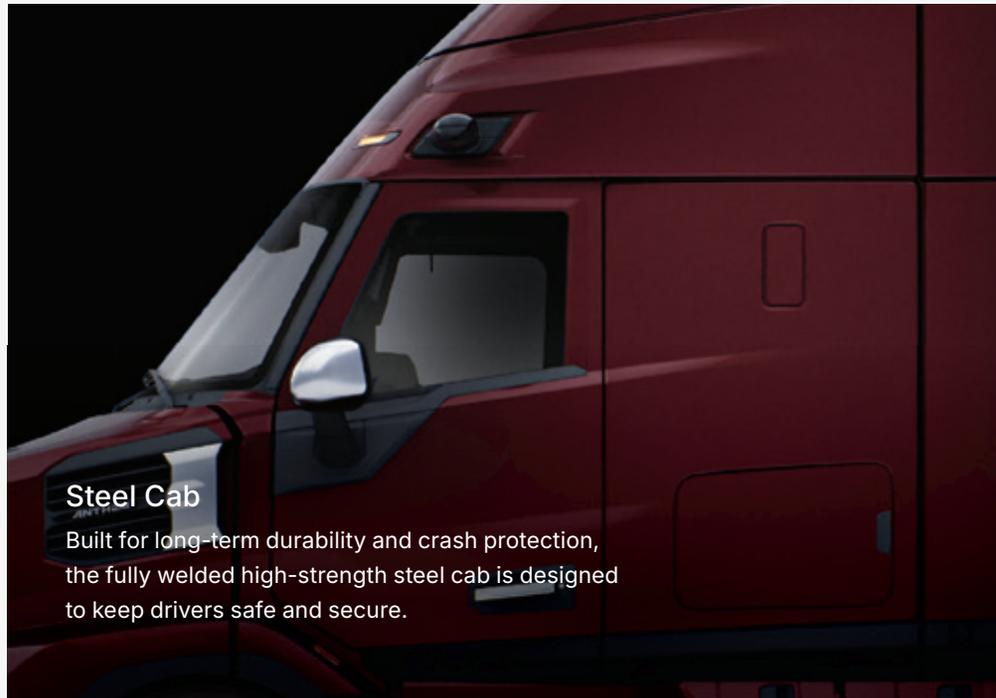

Forward and Side Pedestrian Detection

Using advanced radars to detect and alert for pedestrians, motorcycles, and cyclists in front of or to either side of the truck, Anthem is ready for crowded cities and busy job sites.

Lane Keep Assist

With Mack Protect, Lane Keep Assist helps keep Anthem centered in its lane when Adaptive Cruise Control is active. If drivers start to drift, it uses electronic steering paired with a forward camera to attempt to return to the lane while providing haptic feedback and dashboard warnings.

Steel Cab

Built for long-term durability and crash protection, the fully welded high-strength steel cab is designed to keep drivers safe and secure.

Digital Mirror System

This addition combines dual camera wings and interior high-resolution digital displays to provide clear, real-time views that replicate traditional mirrors for enhanced visibility and safety.

E-Call 911

Automatically calls emergency services (911) if the deployment of air bags and/or a rollover event is detected.

Additional Safety Features

Lane Change Support

From crowded highways to bustling urban environments, blind spots are inevitable. Lane Change Support (LCS) utilizes side radars to detect and alert when objects are next to the vehicle.

Frontal Collision Rollover Support

Automatically shuts down engine, unlocks doors, and turns on interior lights to help vehicle occupants safely exit the vehicle after a rollover incident or frontal collision.

Electropneumatic Braking System

Air pressure adapts to different driving conditions, providing smoother, more consistent braking.

New Front and Side Curtain Airbags

Standard frontal airbag and available side curtain airbags provide an added layer of protection in the event of a collision or rollover.

Increased Visibility

A new Mack Aero Windshield provides maximum line of sight to help drivers navigate tight spaces.

Tire Monitoring System

Tire wear and consumption can be a major issue for fleets. Tire Monitoring System streamlines tire monitoring to get the most out of tires over their lifetime of use.

Flared Frame Rails

Designed to enhance crash energy management, providing greater protection for drivers in the event of a collision.

HARNESS THE POWER OF INTEGRATED UPTIME.

THIS IS THE NEW STANDARD.

Mack Integrated Uptime

Maximize uptime and minimize downtime with intelligent monitoring tools, remote diagnostics, and predictive maintenance systems. 5 years of Integrated Uptime included with purchase.*

*See dealer for details.

Expanded Over the Air (OTA) Updates

Updated vehicle software and parameters to deliver all the latest improvements.

GuardDog® Connect

Automatically monitors your truck to coordinate the right support solution and service scheduling—all while you're still on the job.

Mack OneCall®

Our team at Mack OneCall® provides 24/7 full-service support with a network of experts to keep you and your drivers informed and connected ahead of any problem.

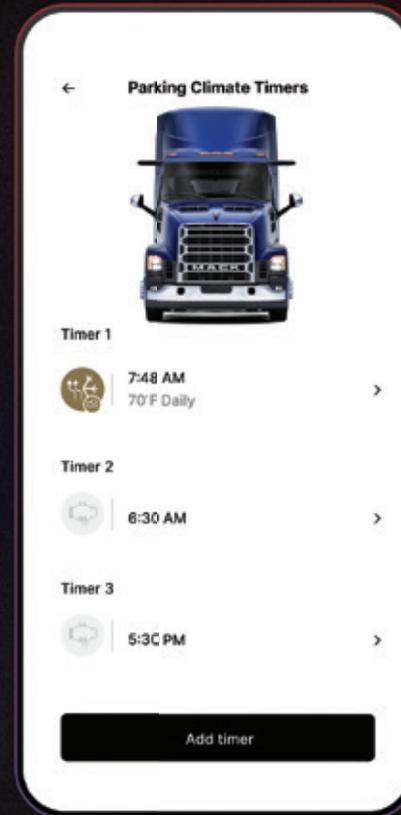

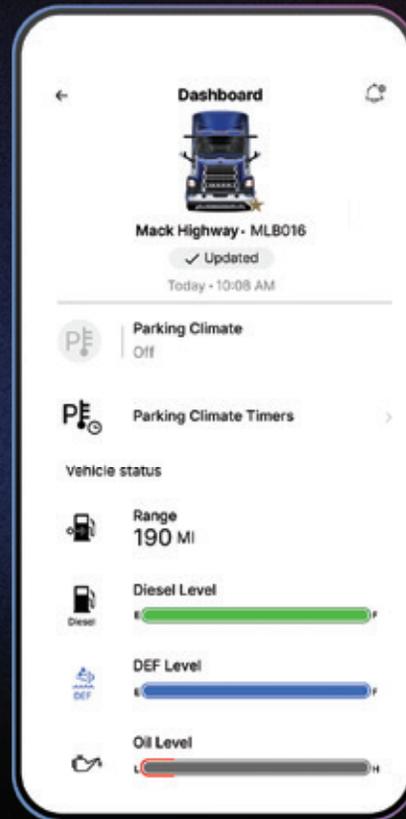

ASIST

For on-the-go coordination, Mack ASIST assembles consistent, complete, and professional estimates of service recommendations.

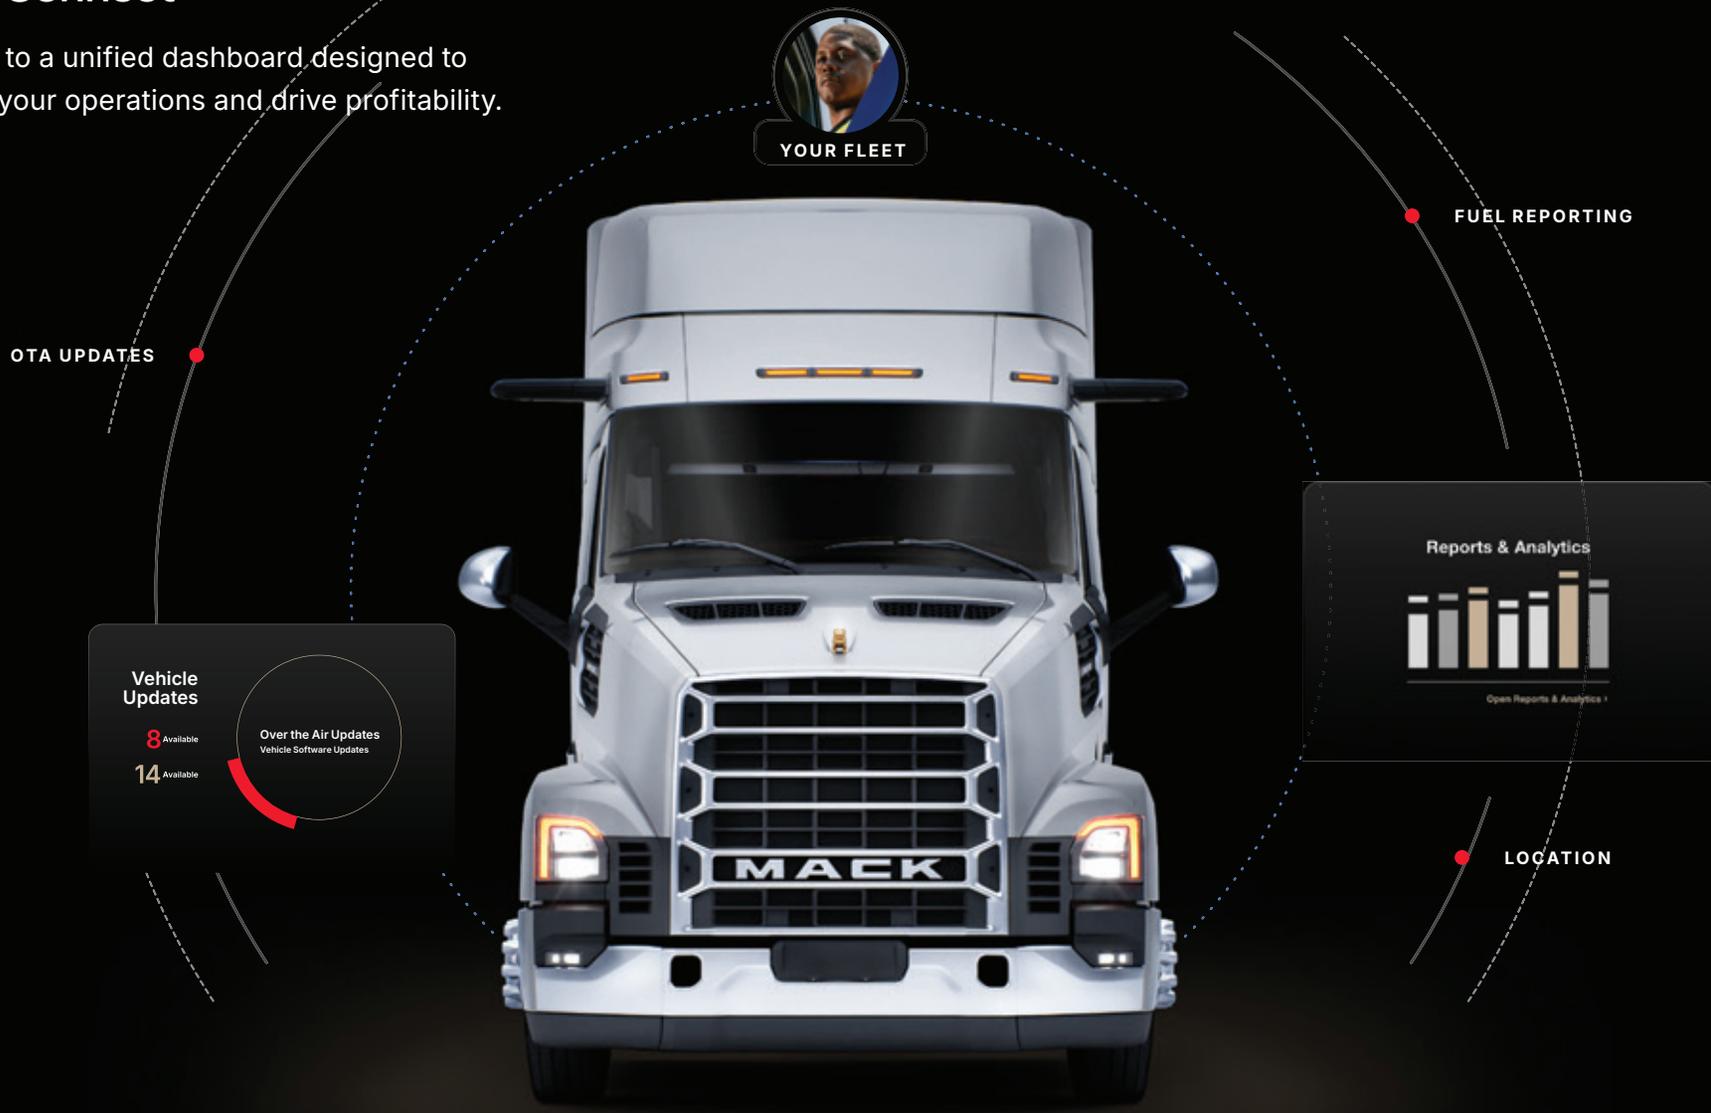

New MyMack Mobile App

MyMack places on-the-go information and control of your truck right in the palm of your hand. Remotely control and schedule climate functions, check your fuel levels, and monitor other key performance indicators—all from one convenient location.

Mack Connect

Connect to a unified dashboard designed to simplify your operations and drive profitability.

Track Performance

Use location data to monitor your truck's position history and location in real time and analyze your routes.

Maximize Uptime

Instantly access truck parameter and fault code information to address issues and get your vehicle back on the job quickly.

Simplify Daily Operations

The integrated dashboard is your unified hub to monitor fleet data across a full suite of integrated truck features.

Increase Efficiency

Track fuel usage and visualize operating parameters such as road speed settings across your entire fleet in a single hub.

THE NETWORK
THAT DRIVES US.

THIS IS THE NEW STANDARD.

Mack Support

Behind Mack Anthem® stands a human infrastructure dedicated to responsive service and support.

Get the tools and resources to keep your truck—and business—running smoothly.

24/7 Roadside Assistance

When problems occur, Mack OneCall™ is there. 24/7 access to technical support to keep fleet managers and drivers informed, connected, and moving

Certified Uptime Dealers

Mack's Certified Uptime Dealers—a large portion of our dealer service network—are able to identify quick fixes and put your truck in the fast lane for completion.

Investing In Service

The Mack Dealer Network is committed to quick, quality service. That's why our dealers have invested nearly \$600 million since 2010 to expand our number of locations, modernize facilities, and improve access to parts.

Family Experience

Whether you're behind the wheel or managing the fleet, when you run with Mack, you're part of the family. That means you'll always get personalized attention and the support you need.
