# HEAVY DUTY, REDEFINED.

Built stronger so you dominate the jobsite longer. The all-new Mack Granite® delivers uncompromising durability that you've trusted for decades, now paired with the premium comfort that helps you maximize your time behind the wheel.

Because when the job demands everything from your truck, your truck should demand nothing from the driver. Redefined exterior. Steadfast reputation. This is Granite.

# DOMINATE EVERY JOBSITE.

THIS IS THE NEW STANDARD.

## Applications

From dump trucks to concrete mixers, from roll-off to snow removal operations, the all-new Mack Granite® is purpose-built for the toughest vocational truck applications. Mack's vocational expertise means you get a truck that's optimized for your specific needs, not a one-size-fits-none compromise.

Axle-Back Day Cab\*

113.5" BBC.

\*Available in 44-inch mid-roof sleeper option.

# UNCOMPROMISING DURABILITY.

THIS IS THE NEW STANDARD.

## Durability

The Granite® name has always meant one thing: a truck that refuses to quit. The all-new Granite takes that legacy and makes it even tougher. Every component, every system, every detail is engineered to withstand the demands of the toughest jobsites.

• All-New Galvanized Steel Cab  
Built to endure the elements and the years.

## ImpactShield Windshield

One-piece bonded design stands up to flying debris and harsh conditions with 2x better impact resistance, 5x better scratch resistance, and 10x better weathering performance. Enhanced design reduces ownership costs and extends service life while delivering improved defrost and enhanced ADAS optics.

## Heavy-Duty Frame Rails

Engineered specifically for maximum payload and vocational demands.

# COMFORT FROM THE GROUND UP.

THIS IS THE NEW STANDARD.

## Comfort

Jobsites are brutal. Your truck shouldn't be. The all-new Mack Granite® redefines what comfort means in heavy-duty vocational work. Because we know driver health and productivity start with the cab.

### Designed for the Driver

Mack Granite's cab design and driver environment are built around the way work gets done on the road, keeping drivers comfortable, safe, and focused all day long.

### Flat-Bottom Steering Wheel

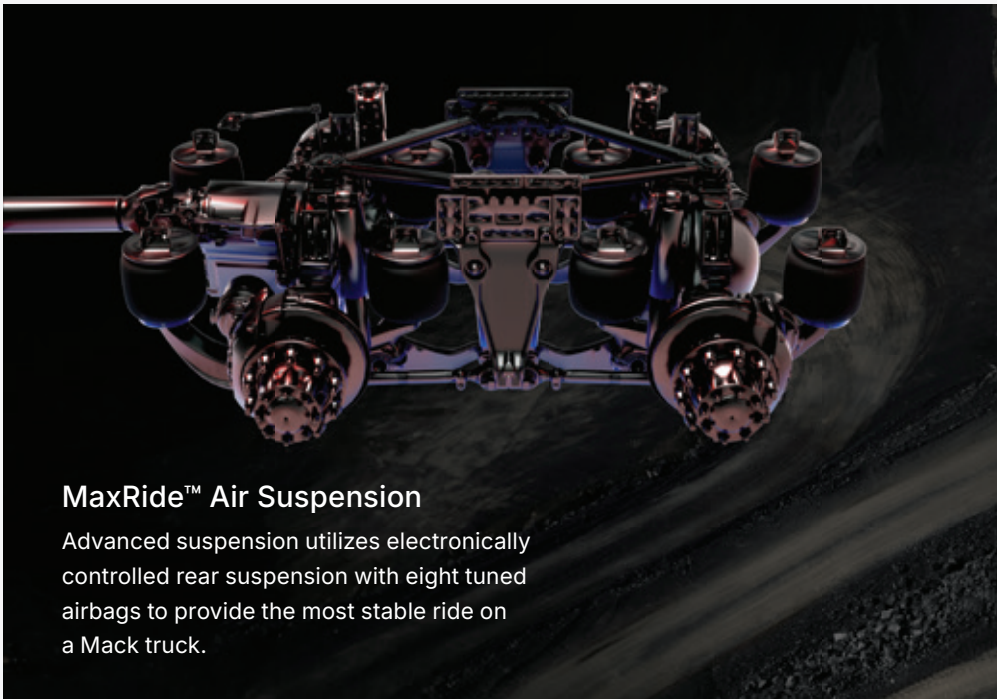

A flat-bottom wheel allows more room where it counts. Smart steering wheel buttons access infotainment, cruise control, Co-Pilot™ Display navigation, headlight and marker light interrupter switches, and phone controls.

### Spacious Interior Cab

Granite breaks new ground with an interior cabin that's 9 inches wider than the previous model.

### Standard Wide-Base Seat

Designed for all-day comfort, Granite's seating keeps drivers refreshed during long days and features options for heating, cooling, and massage.

### MaxRide™ Air Suspension

Advanced suspension utilizes electronically controlled rear suspension with eight tuned airbags to provide the most stable ride on a Mack truck.

### Available Mack® Command Steer

If equipped, Command Steer delivers up to 85% reduction in steering effort, giving drivers precise control in all conditions with customizable settings that boost productivity and comfort behind the wheel.

### Stalk-Mounted *mDRIVE*™ Controls

Positioned for easy access, the shifter allows for smooth, intuitive gear changes without taking hands off the wheel.

### Mack Co-Pilot™ Display

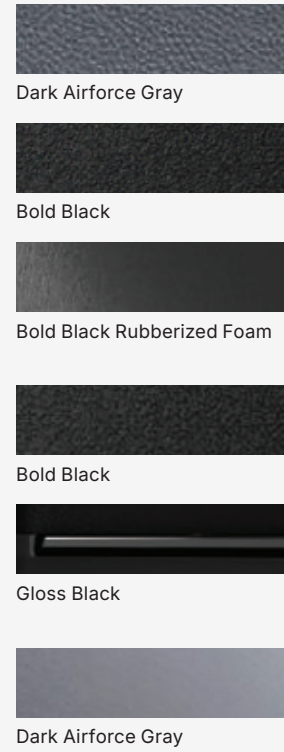

New 12" digital instrument cluster and 9" infotainment display option offer critical information and intuitive navigation.

# Customize Your Interior

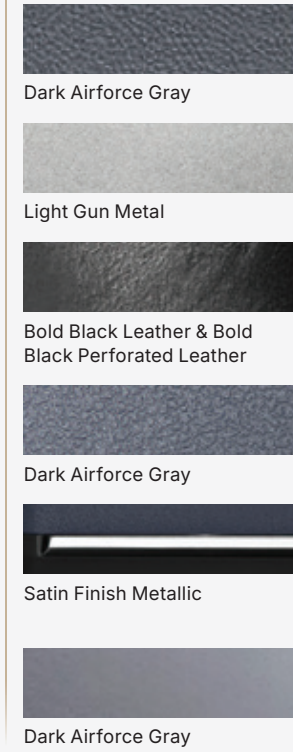

Choose from three Granite® trim levels to create a cab that matches your operation. From door panels to dash accents, every detail is built to deliver the comfort you demand and the durability you expect, shift after shift.

- 1. Door Panel
- 2. Door Panel Accent Trim
- 3. Steering Wheel
- 4. Dash Topper
- 5. Dash Highlight Accent
- 6. Interior Panels & Cabinets

## Elite Trim

MORE POWER  
SAME PEDIGREE.

THIS IS THE NEW STANDARD.

## Performance

The all-new Mack Granite® pairs the legendary Mack MP13 engine with the advanced *mDRIVE HD™* automated manual transmission. The result? More power, better fuel economy, and the confidence that comes from Mack's integrated powertrain expertise.

# Integrated Powertrain

## MP<sup>®</sup>13 Engine

1,950 lb-ft Max Torque

540 Max Horsepower

Up to 3% greater fuel efficiency\* over Granite with MP8 engine

R100 and B20 fuel compliant

Enhanced PowerLeash™ provides up to 25% more engine brake performance

Power tuned for consistent speed and torque across the wide operating range required for concrete mixing

\*Depending on fuel cycle of specific application.

## mDRIVE HD™ Transmission

12-, 13-, or 14-speed configurations

Optimized for vocational applications

New optional Creep Mode

30% faster shifting through optimized transmission design

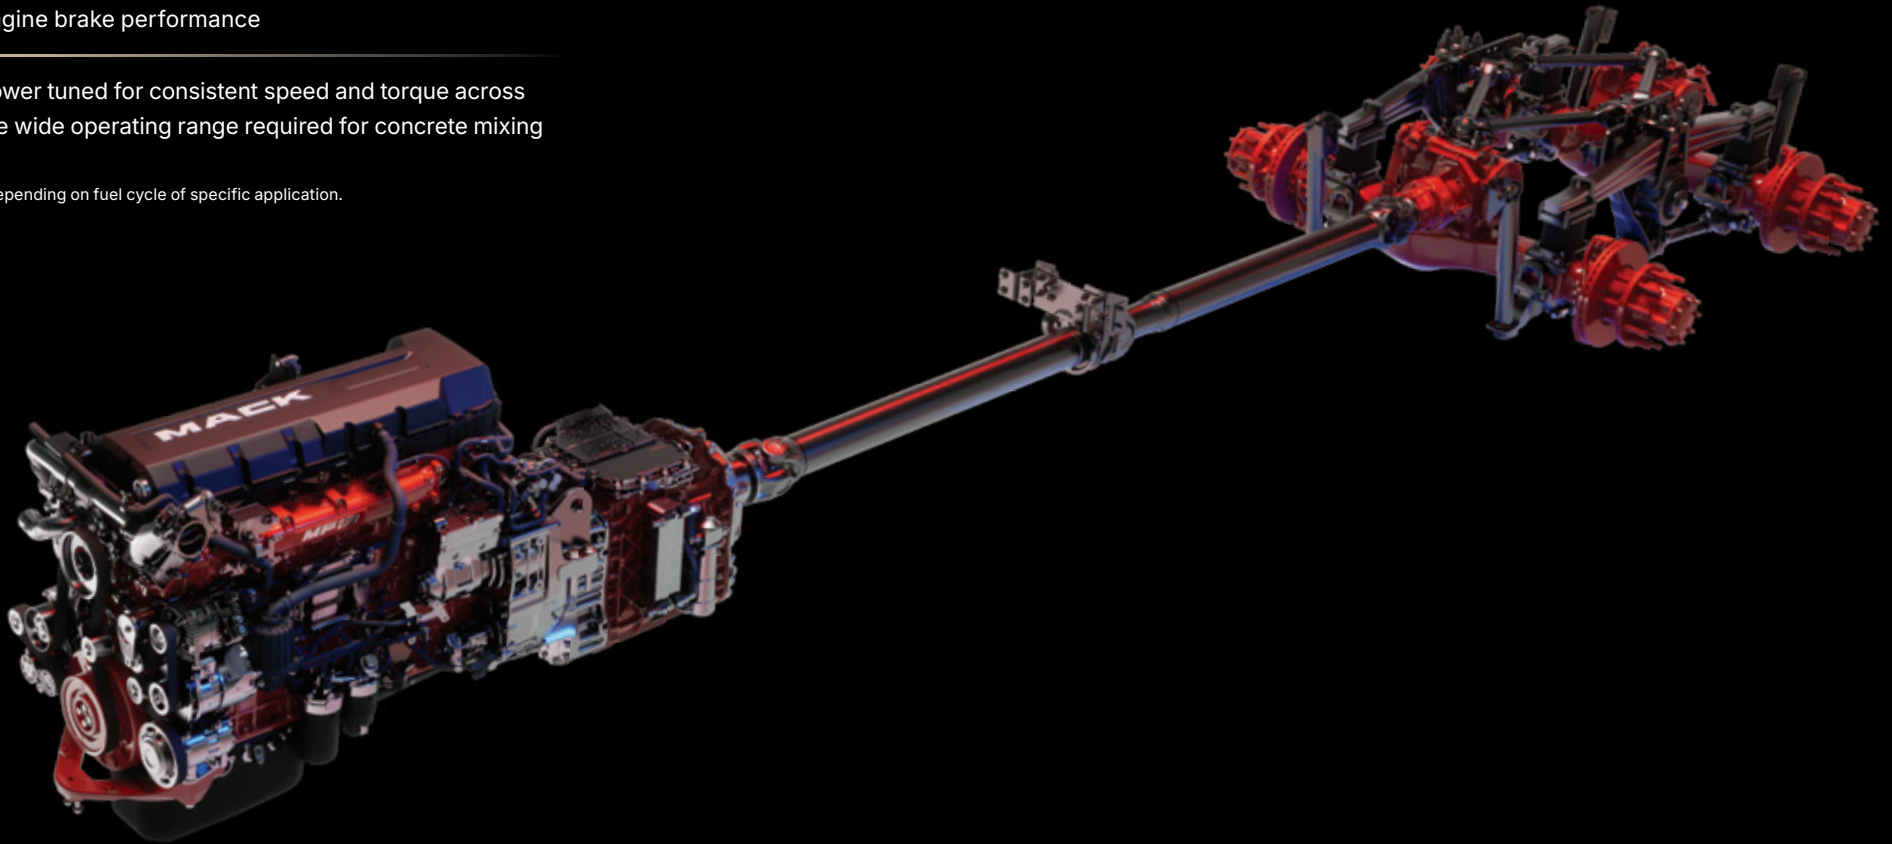

## Key Benefits

Optimized shift mapping for vocational work

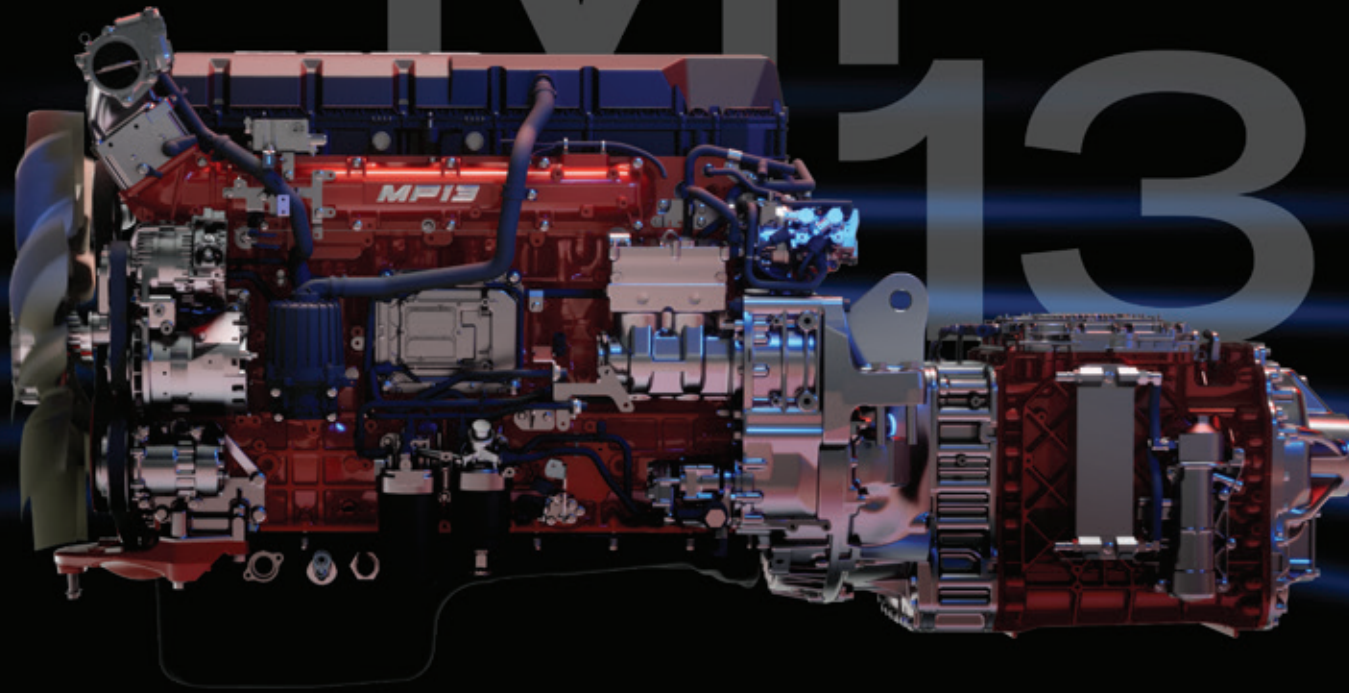

Predictive shifting based on load and grade

Reduced maintenance complexity

Single-source warranty coverage

# MP13

## Cummins X10 Engine

The available Cummins X10 engine delivers up to 450 horsepower and 1,650 lb-ft of torque, giving Granite customers a proven, reliable powertrain option across a range of vocational and hauling demands.

## Greater Power

With the potential to deliver up to 540 horsepower for highway efficiency or up to 1,950 lb-ft of torque for demanding applications, the MP<sup>13</sup> comes in various ratings to power any haul.

## Greater Fuel Efficiency

The all-new Mack Granite<sup>®</sup> with MP<sup>13</sup> engine delivers up to 3% greater fuel efficiency\* over Granite with MP8 engine.

\*Depending on fuel cycle of specific application.

## Electric Park Brake

Increasing safety and reliability by providing consistent braking force, the electric park brake enables automatic engagement and integration with vehicle safety systems.

## New Mack mDRIVE™ Transmission

mDRIVE™ utilizes new sensors and updated valves to improve gear shifting performance across any terrain, maximizing efficiency while reducing driver fatigue.

# GROUNDBREAKING SAFETY.

THIS IS THE NEW STANDARD.

## Safety

The toughest truck on the jobsite is also one of the smartest. The all-new Mack Granite® brings advanced safety technology to the vocational world, protecting your drivers, your investment, and everyone around the jobsite.

### Mack Protect™ Safety Suite

Combining radars and cameras to detect potential hazards, the Mack Protect™ Safety Suite provides alerts to the driver, and if necessary, it intervenes with engine control, braking, and even corrective steering to help avoid collisions.

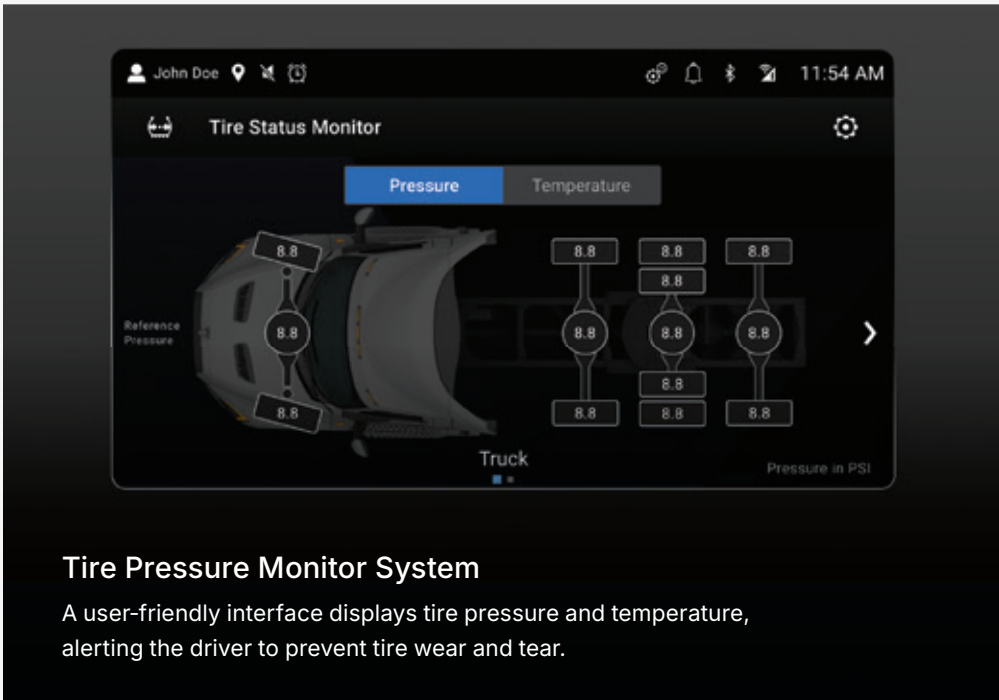

### All-New Steel Cab

Built for long-term durability and crash protection, the fully welded high-strength steel cab is designed to keep drivers safe and secure.

### Standard Front and Optional Side Curtain Airbags

Standard frontal airbag and available side airbags provide an added layer of protection in the event of a collision or rollover.

### Tire Pressure Monitor System

A user-friendly interface displays tire pressure and temperature, alerting the driver to prevent tire wear and tear.

### E911 Auto Call

Automatically calls emergency services (911) if the deployment of air bags and/or a rollover event is detected. An optional emergency communication system allows drivers to manually trigger a call.

## Additional Safety Features

### Mack CommandView

Utilizing multiple cameras, this advanced feature will offer drivers 360-degree visibility and the ability to monitor payload with Weight Management. This provides the highest level of situation awareness and load management.

---

### Electropneumatic Braking System

Air pressure adapts to different driving conditions, providing smoother, more consistent braking.

---

### Increased Visibility

The new ImpactShield windshield improves the driver's line of sight and awareness, while enhancing the optics of the Advanced Driver Assist System (ADAS) by more than 50%.

---

### Flared Front Frame Rails

These heavy-duty frame rails were designed to lower the engine mounting and allow the engine and transmission to break away under the cab in a forward collision, providing great protection for drivers in the event of a collision.

---

### Frontal Collision Rollover Support

Automatically shuts down engine, unlocks doors, and turns on interior lights to help vehicle occupants safely exit the vehicle after a rollover incident or frontal collision.

# NEXT-LEVEL CONNECTIVITY.

THIS IS THE NEW STANDARD.

## Built to Maximize Uptime

### Mack Integrated Uptime

Optimize Mack Granite® with a connected suite of smart, responsive productivity tools. 5 years of Integrated Uptime included with truck purchase.\*

### Mack OneCall

Our team at Mack OneCall provides 24/7 full-service support with a network of experts to keep you and your drivers informed and connected ahead of any problem.

### Over-the-Air Updates

Updates vehicle software and parameters to deliver all the latest improvements, 24/7.

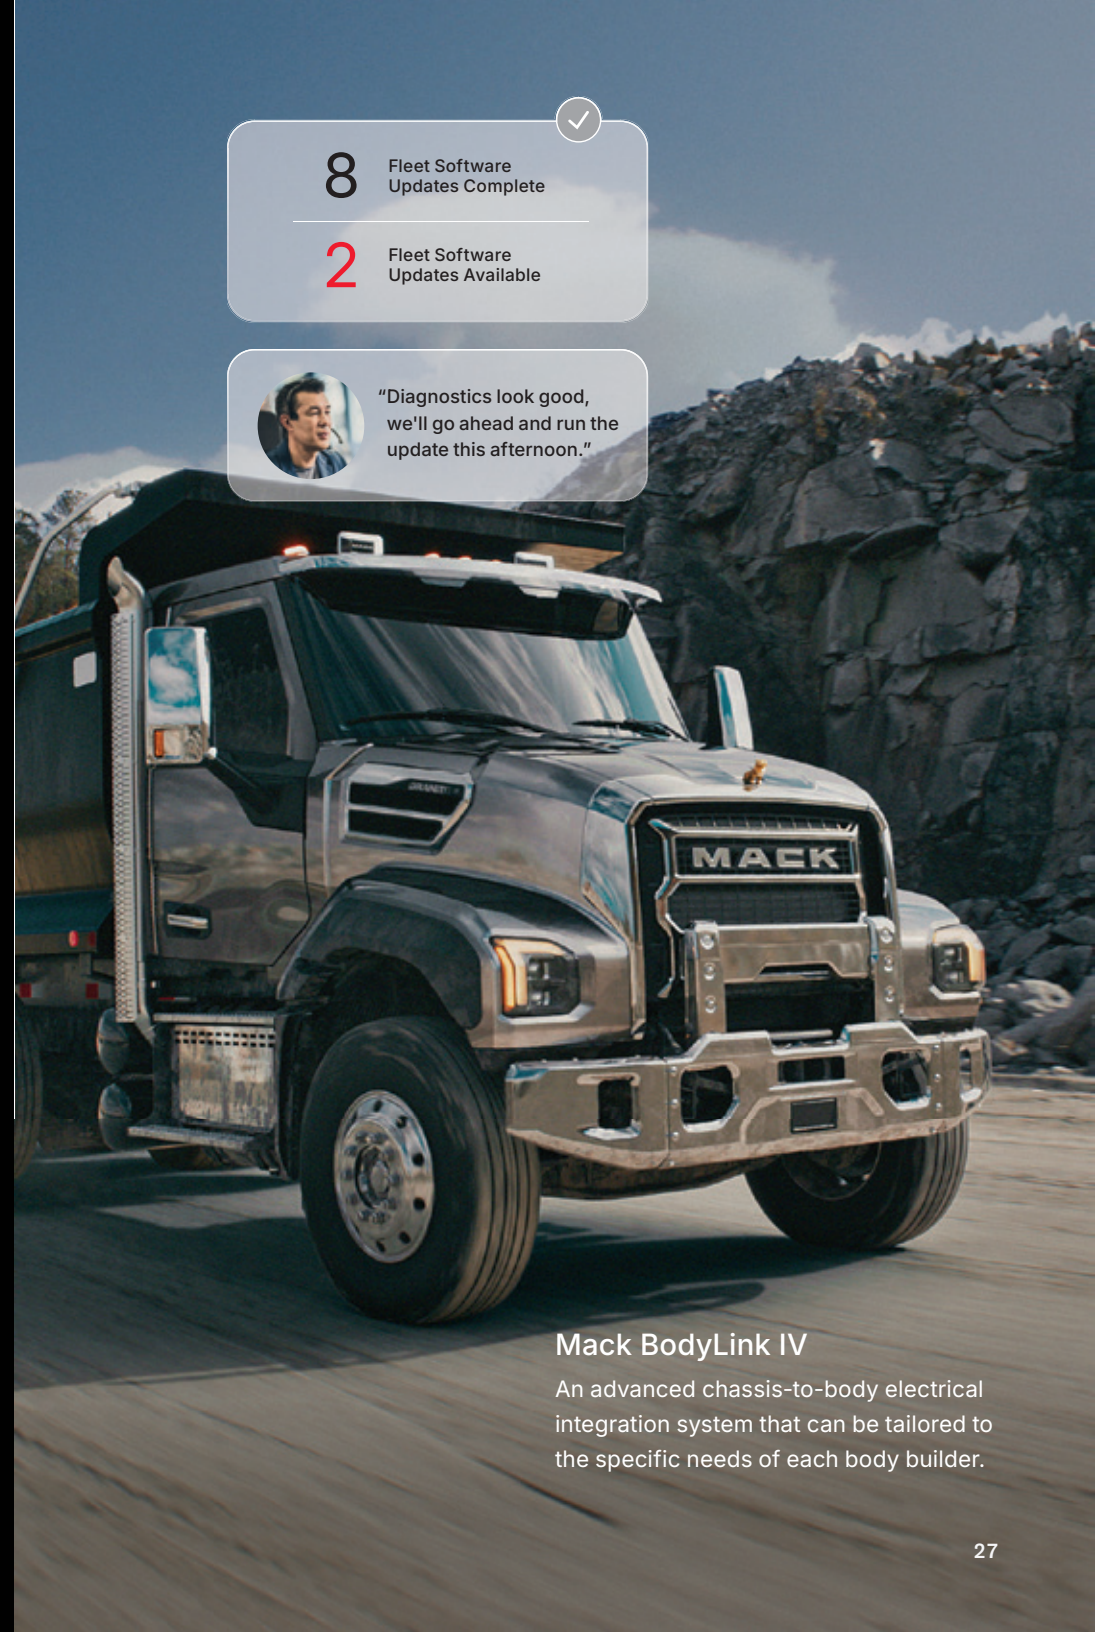

### GuardDog® Connect

Automatically monitors your truck and alerts fleet managers to coordinate the right support, solutions, and service scheduling, all while you're still on the job.

### Mack ASIST

For on-the-go coordination, Mack ASIST assembles consistent, complete and professional estimates of service recommendations.

\*See dealer for details.

**8** Fleet Software Updates Complete

**2** Fleet Software Updates Available

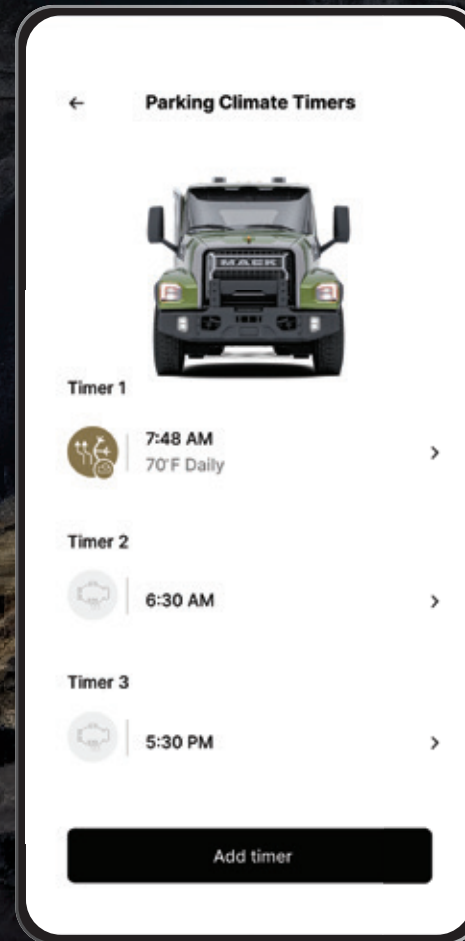

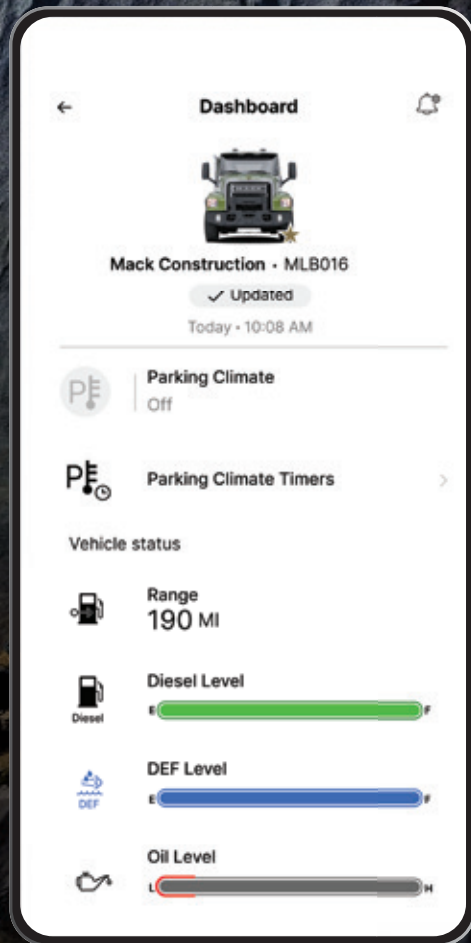

"Diagnostics look good, we'll go ahead and run the update this afternoon."

### Mack BodyLink IV

An advanced chassis-to-body electrical integration system that can be tailored to the specific needs of each body builder.

# New MyMack Mobile App

The industry-leading MyMack Mobile App places on-the-go information and control of your truck right in the palm of your hand. Remotely control and schedule climate functions, check your fuel levels, and monitor other key performance indicators, all from one convenient location.

Download the MyMack Mobile App

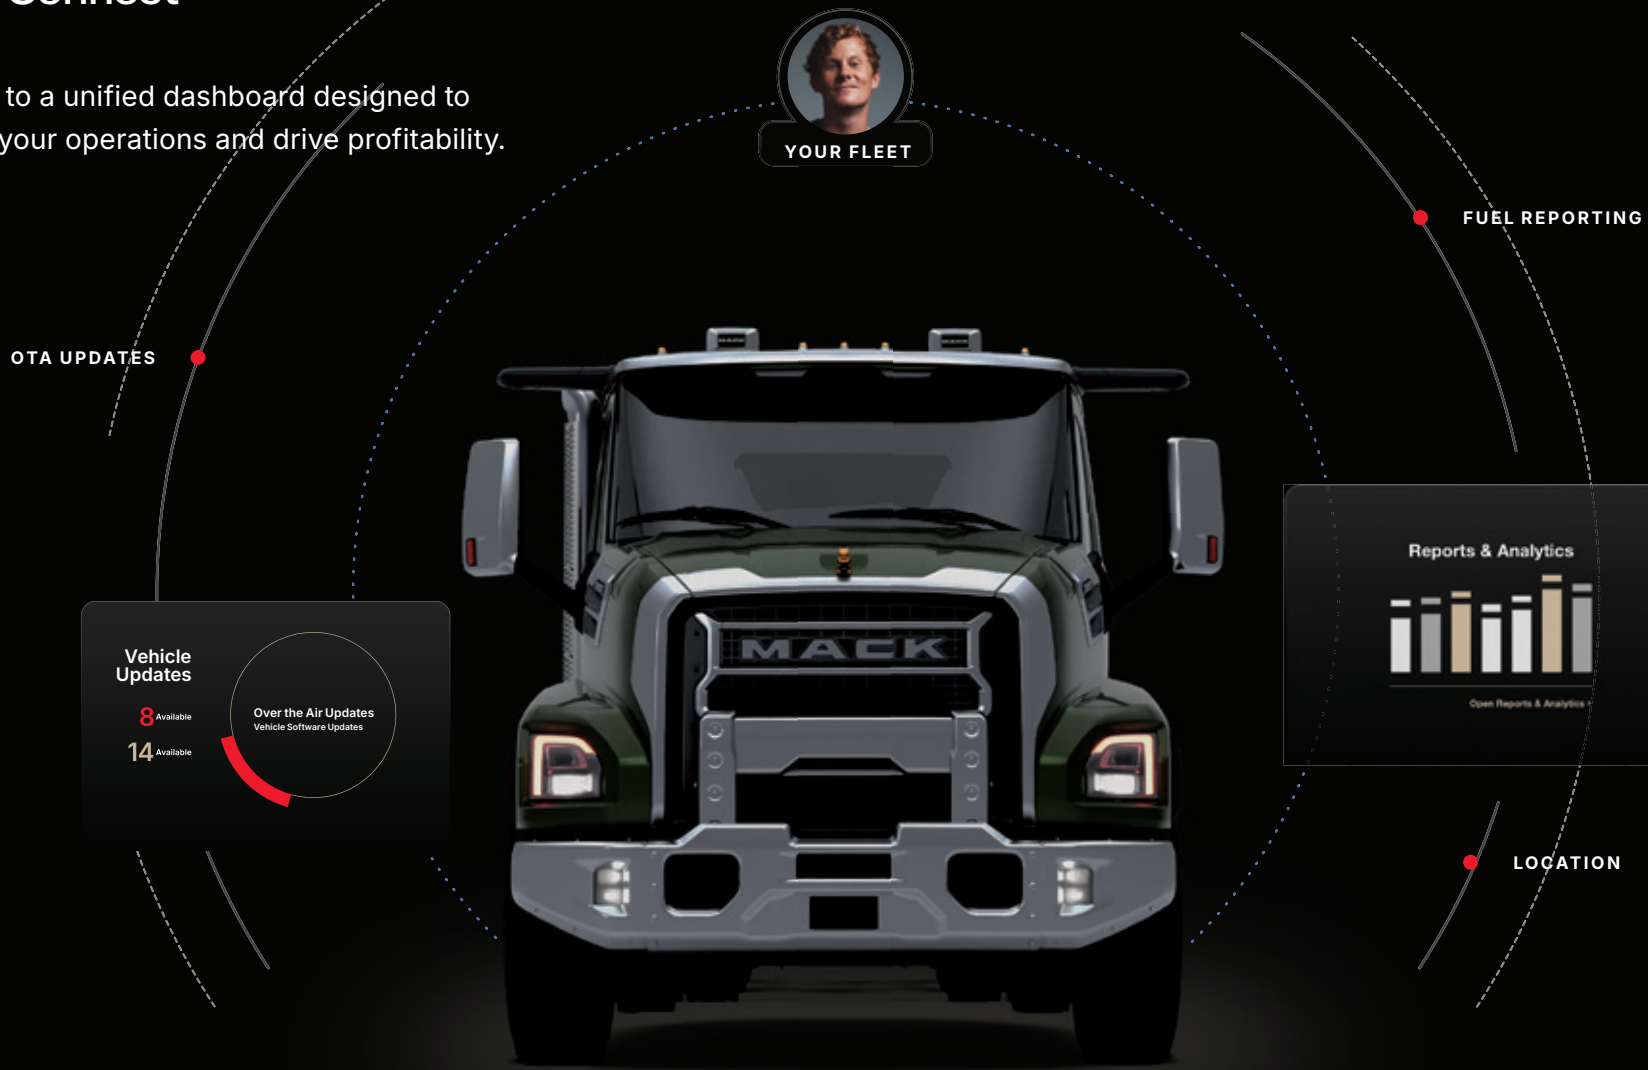

Android

iPhone

# Mack Connect

Connect to a unified dashboard designed to simplify your operations and drive profitability.

## Over-The-Air Updates

Over-The-Air (OTA) software updates mean your vehicle always has the latest improvements within minutes, 24/7.

## Maximize Uptime

Instantly access truck parameter and fault code information to address issues and get your vehicle back on the job quickly.

## Simplify Daily Operations

The integrated dashboard is your unified hub to monitor fleet data across a full suite of integrated truck features.

## Increase Efficiency

Tracking fuel usage and visualizing operating parameters such as road speed settings across your entire fleet in a single hub.

# THE NETWORK THAT DRIVES US.

THIS IS THE NEW STANDARD.

## Mack Support

Behind Mack Granite® stands a human infrastructure dedicated to responsive service and support. Get the tools and resources to keep your truck and business running smoothly.

### Mack Body Builder Portal

Access everything from CAD drawings and frame layouts to electrical schematics and dimensional data from your truck in one, easy online location.

### Certified Uptime Dealers

Mack's Certified Uptime Dealers—a large portion of our dealer service network—are able to identify quick fixes and put your truck in the fast lane for completion.

### Mack Upfit Solutions Program

Connect with Mack approved body builder and upfitters to ensure proper integration of specialized equipment.

### Investing In Service

The Mack Dealer Network is committed to quick, quality service. That's why our dealers have invested nearly \$600 million since 2010 to expand our number of locations, modernize facilities, and improve access to parts.

### Family Experience

Whether you're behind the wheel or managing the fleet, when you run with Mack, you're part of the family. That means you'll always get personalized attention and the support you need.

### 24/7 Roadside Assistance

When problems occur, Mack OneCall, conveniently located in Greensboro, North Carolina, is there, with 24/7 access to technical support to keep fleet managers and drivers informed, connected, and moving.
