

MACK®

HIGHWAY

ENGINEERED
FOR EVERY MILE.

BUILT FOR
EVERY HAUL.

Mack highway trucks carry more than cargo. They move your business forward. That's why we've designed our highway trucks with every advantage possible. Reliable, fuel efficient and driver friendly, the Mack Pioneer™, Mack Anthem®, and Mack Keystone™ trucks are built for your business and designed for the driver.

MEET THE LEGENDARY HIGHWAY LINEUP.

Explore configurations, select paint colors and exterior options through Mack Trucks configurator at: build.macktrucks.com

PIONEER™

Pioneer redefines efficiency with up to 11% better fuel economy through enhancements to the aerodynamics and the powertrain.

Day Cab

Available with 12'6" and 13'6" roof fairing

44-Inch Sleeper

Available with or without 13'6" roof fairing

64-Inch Sleeper

Available with or without 13'6" roof fairing

76-Inch Mid-Roof Sleeper

Available with or without 13'6" roof fairing

76-Inch Sleeper

Available with fixed and adjustable trim tab

ANTHEM[®]

Anthem masters the art of maneuvering tight turns and busy city streets with a redesigned frontal profile and a shorter bumper to back of cab and bumper to front axle.

Day Cab
Available with 12'6" and 13'6" roof fairing

44-Inch Mid-Roof Sleeper
Available with or without 13'6" roof fairing

64-Inch Mid-Roof Sleeper
Available with or without 13'6" roof fairing

KEYSTONE[™]

Keystone is engineered to answer the call of every job site, highway, and heavy-duty task with a higher ground clearance and MaxRide™ Air Suspension.

Axle-Forward Day Cab
Roof fairing available in 12'6" or 13'6" overall height

Axle-Forward 44-Inch Sleeper
Roof fairing available in 13'6" overall height

Axle-Forward 64-Inch Sleeper
Roof fairing available in 13'6" overall height

Axle-Back Day Cab
Roof fairing available in 12'6" or 13'6" overall height

Axle-Back 44-Inch Sleeper
Roof fairing available in 13'6" overall height

Axle-Back 64-Inch Sleeper
Roof fairing available in 13'6" overall height

READY FOR ANY ROAD.

Whether you're covering 10 miles or 10,000, you can count on Mack highway trucks to get you there. No matter the job, Mack highway trucks deliver the reliability, comfort, efficiency and strength you need to tackle whatever the road brings.

Long Haul

Ergonomic driver environments and spacious sleeper options keep drivers comfortable, mile after mile.

Regional Haul

Mack's cab configurations provide the easy maneuverability that the road demands.

KEYSTONE™

Vocational

Mack highway trucks deliver the power and performance to handle the heaviest hauls on any terrain.

KEYSTONE™

Agriculture

Smart engineering reduces fuel consumption and maximizes payload capacity for bulk haul operations.

Powered by Mack's integrated powertrain.

Engineered for efficiency and performance,
and proudly assembled in Mack's Hagerstown,
Maryland facility, our integrated powertrain is
the toughest in the game. Bar none.

Mack Transmissions

Mack transmissions are designed
to reduce driver fatigue, maximize
uptime and perform in the most
demanding conditions.

Mack Suspensions

Engineered to be stronger,
for enhanced reliability and
outstanding performance.

Mack Axles

Featuring multiple options including
4×2, 6×2, 6×4 and 8×4 configurations,
our axles outperform everywhere—
from cross-country long hauls to
on-road/off-road applications.

MP¹³ Engine

With superior horsepower, torque and
fuel economy, Mack's MP¹³ engine
conquers the highway, mile after mile.

Engine and Transmission Options

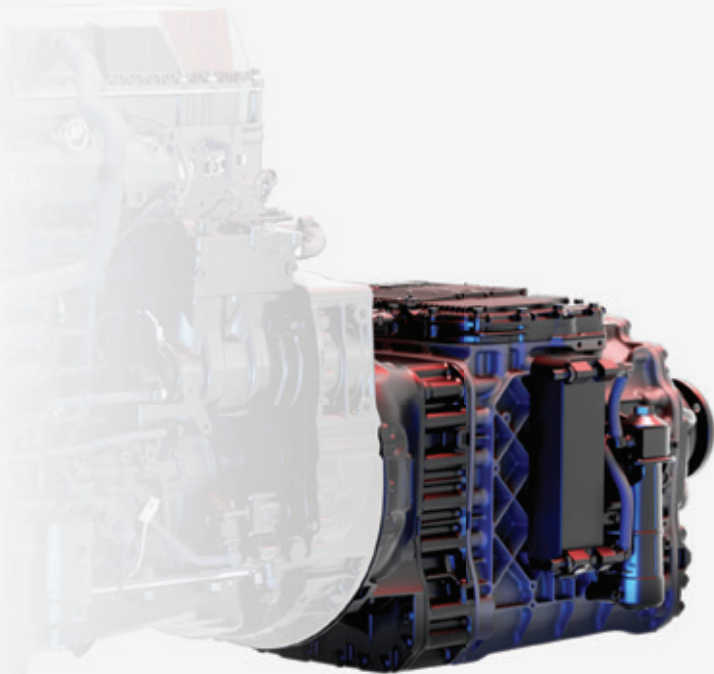

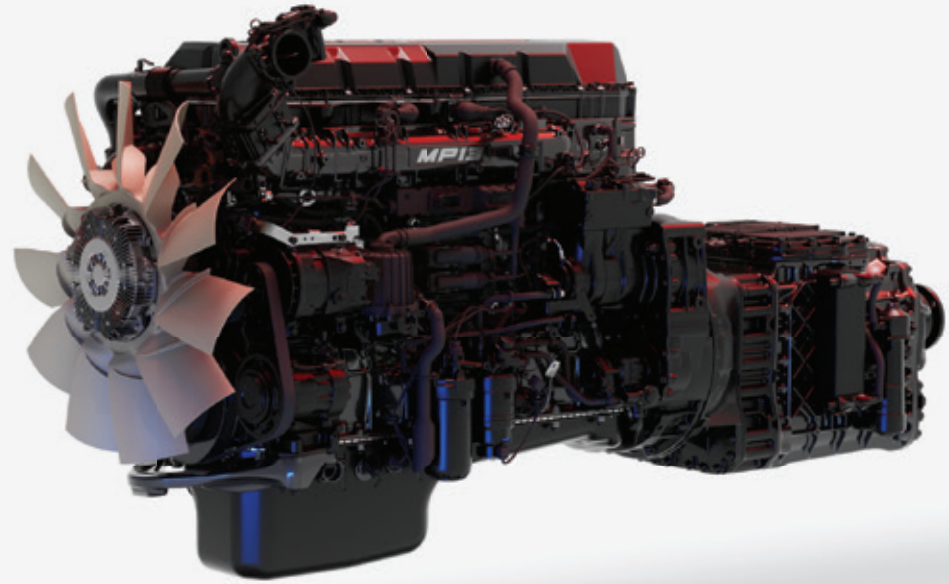

MP[®]13

New MP[®]13 Engine

Delivering up to 540hp and up to 1,950 lb-ft of torque, the MP[®]13 is engineered to deliver unprecedented power and fuel economy.

Wave Piston Design

A new piston head geometry provides improved fuel efficiency compared to previous engine designs.

mDRIVE[™]

Smarter Hauling

mDrive[™] continuously monitors changes in grade, acceleration, vehicle weight and more to optimize fuel economy.

Enhanced Transmission Electronics

mDrive[™] utilizes updated electronics and improved valves to deliver up to 30% faster gear shifting.

Available Creep Mode

Unlock a faster rear axle ratio for improved fuel efficiency at highway speeds.

mDRIVE[™]

Mack's industry-leading automated manual transmission expands your driver base, reduces costs, and delivers the smoothest shifting around.

mDRIVE[™] HD

Designed for heavy duty vocational work, mDRIVE[™] HD has two additional low gear ratios and multi-speed reverse gears for more stability, maneuverability, and flexibility in low-speed applications.

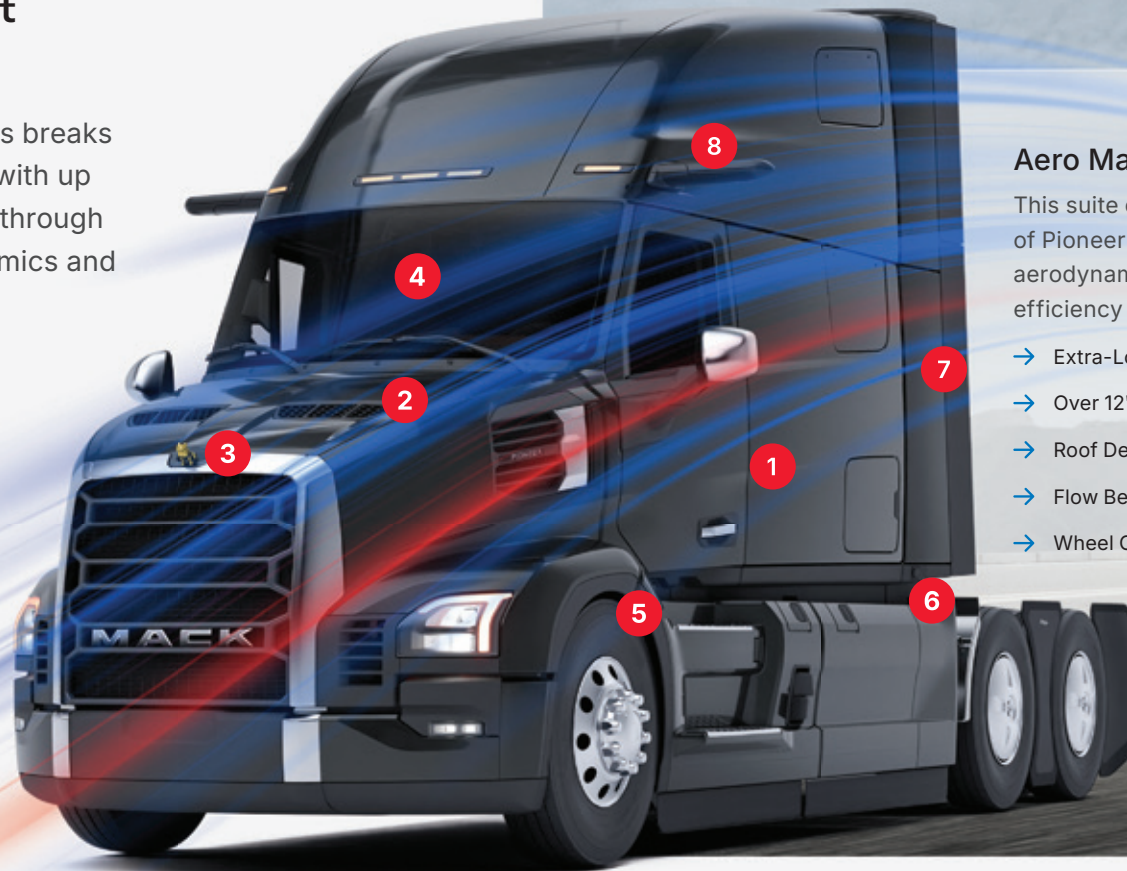

DEFYING
THE WIND

PIONEER™

Aerodynamics that defy the wind.

Our lineup of highway trucks breaks new barriers for efficiency with up to 11% better fuel economy through enhancements to aerodynamics and the powertrain*.

Aero Max Package

This suite combines the full set of Pioneer and Anthem's aerodynamic options for maximum efficiency and fuel economy.

- Extra-Low Chassis Ground Effects
- Over 12" Enhanced Cab Extenders
- Roof Deflector with Trim Tab
- Flow Below
- Wheel Covers

Aerodynamics

1. Wider Cab

9 inches of additional width streamlines airflow and creates a spacious driver environment.

2. Redesigned Hood

With precision-engineered contours and optimized airflow channels, this hood was designed for aerodynamics and increased visibility.

3. Inset Bulldog

Recessed bulldog hood ornament reduces wind drag while keeping a classic icon front and center.

4. Aero Windshield**

A new wraparound design improves fuel economy and visibility while adding structural strength to the cab.

5. Front and Rear Wheel Closeouts

Creates a clean aerodynamic flow to push air around the wheels.

6. Chassis Fairings

Smooths airflow with covered fuel and DEF tank access and aerodynamic step treads.

7. Cab Side Deflectors

Streamlined design improves performance by reducing drag around the cab.

8. Available Digital Mirror System (DMS)

Real-time digital views that replicate traditional mirrors for enhanced visibility and safety.

*Available on Mack Pioneer™ models

**Available on Mack Pioneer™ and Mack Anthem® models

Drive productivity on every haul with Mack® Command Steer.

Available Command Steer combines world-class ergonomics and electronic-assist technology to deliver next-level handling and stability. Less strain on the driver, more productivity for your business.

● REDUCES DRIVER EFFORT UP TO 85%

● CUTS MUSCULAR STRAIN BY UP TO 30%

Steering Wheel Return-To-Zero

During parking, reversing and driving, the steering wheel automatically returns to zero, saving drivers from wear-related injuries.

Feather-Light Steering at Low Speeds

By adding force to the power steering mechanism, trucks adapt to each situation. At low speed, steering is nearly effortless.

Split Friction Stability

When steering and/or braking on surfaces with different friction, Command Steer improves stability and keeps the steering wheel straight and steady to reduce unwanted steering changes.

Available Oversteer Guidance

This system automatically applies steering corrections when it detects unintended oversteer, helping to maintain lane position and reducing the risk of road departure or crossing into oncoming traffic.

Reduces Deviations

Command Steer monitors road variations at nearly 2,000 times per second to help maintain directional stability on rough roads and in high winds for a more comfortable ride on every road.

Improved Directional Stability

Drivers no longer need to compensate for drifting caused by gusts of wind or banked roads while driving at highway speeds. The result is a steadier and more comfortable ride.

Smooths Rough Roads

Command Steer automatically detects and compensates for rough roads and job sites to help drivers keep a straight course and eliminate the need for constant driver correction.

ANTHEM

Engineered to outmaneuver.

Mack Anthem® represents the next era of trucking agility—where every design element works together to outmaneuver limitations that others accept as inevitable.

Shorter Bumper to Back of Cab and Bumper to Front Axle

This lineup features a shorter bumper to back of cab and bumper to front axle for optimized aerodynamics, easier navigation, tighter turn radius, and better visibility.

Redesigned Frontal Profile

A short, sloped hood and panoramic windshield combine with optimized seating to provide superior visibility for navigating tight spaces and sharp turns.

Higher Ground Clearance

Higher ground clearance is built to help drivers tackle obstacles more easily and prevent damage along the way.

DESIGNED FOR THE DRIVER.

Mack's cab design and driver environment are built around the way work gets done on the road, keeping drivers comfortable, safe and focused all day long.

Driver Environment Features

Everything in Reach

The intuitive instrument panel and steering wheel of the Mack cabs give drivers total confidence and control in the cockpit.

Comfort for the Long Haul

A spacious interior and American craftsmanship give drivers the comfort they need to feel at home.

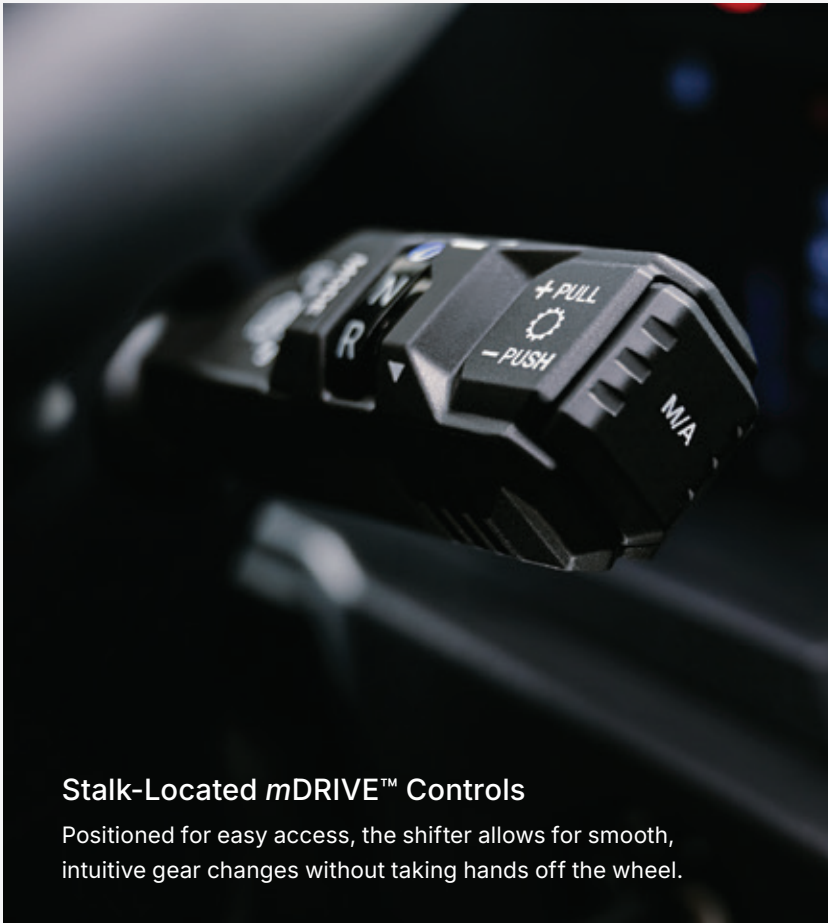

Utility from Top to Bottom

Configure Mack's best-in-class storage for as much or as little as you need to store.

Control at Your Fingertips

Built to work and designed with purpose, the automotive-inspired controls of the Mack cab make operation easy, safe and comfortable.

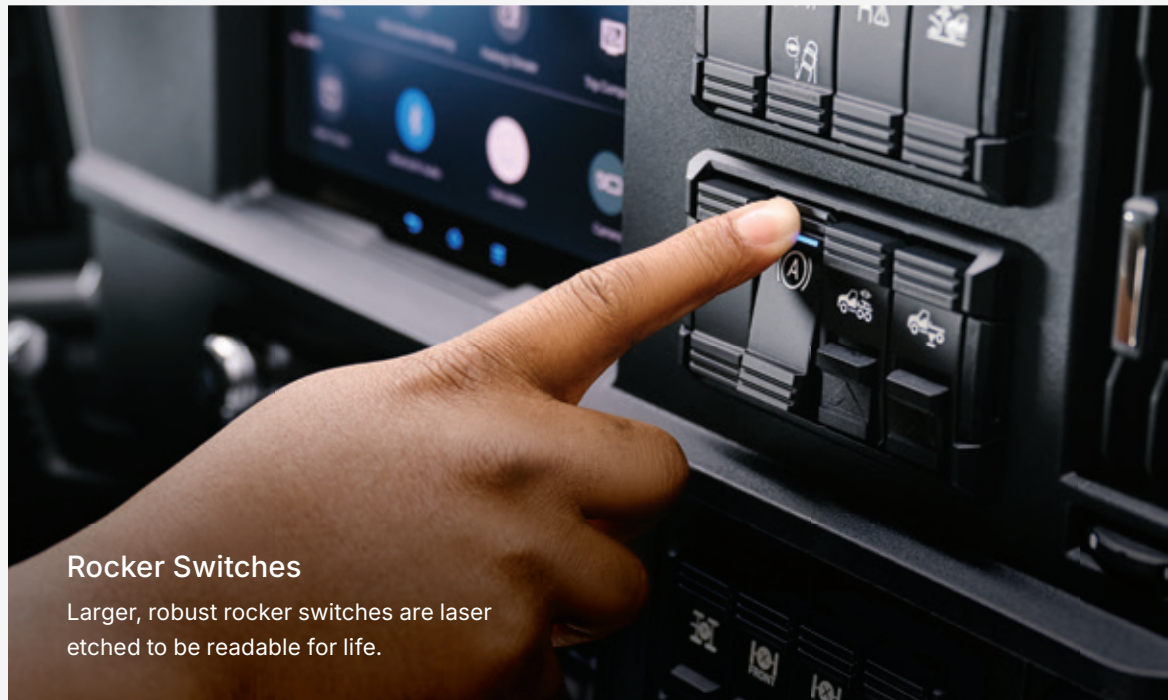

Stalk-Located *mDRIVE™* Controls

Positioned for easy access, the shifter allows for smooth, intuitive gear changes without taking hands off the wheel.

D-Panel Gauges

Customize the dash with 4 optional auxiliary gauges.

Rocker Switches

Larger, robust rocker switches are laser etched to be readable for life.

Illuminated Controls

Keep eyes on the road with familiar, automotive-style controls.

Flat-Bottom Steering Wheel

An industry-first, allowing more room and clearance for entry or exit. Add to that a racecar-style grip, enhanced dash visibility and clipboard-friendly surface for better control and maximum comfort.

Additional Controls

Power Window, Lock, and Mirror Controls

Provide more comfort and control than manual windows.

Light Control Module

Runs all exterior lights from one place with an automotive feel.

Left Stalk

Manages high beams, self-canceling turn signals, and wipers.

Right Stalk

Manages *mDRIVE*™, engine brake, and Mack Co-Pilot™.

Information at a Glance. Eyes on the Road.

Drivers manage constant demands on their attention. Our instrument panel brings important information to the forefront, keeping it clear and readable so drivers can stay focused on the road ahead.

Infotainment Display

9-inch touchscreen, along with smart steering wheel buttons, manages tools like SiriusXM®, Weather Band, Sygic truck navigation, Apple CarPlay, and optional back-up camera.

Mack Co-Pilot™ Display

A 12-inch, full color digital instrument cluster provides enhanced visibility and simple navigation. Multiple selectable views provide both analog and digital gauges to meet the driver's preference.

Vehicle State of Health

The Mack Co-Pilot™ display provides the driver with multiple gauges, service reminders, optional tire pressure monitoring system, and optional load indicator all providing critical vehicle information to the driver.

Unmatched comfort.

The spacious cab, stand up sleeper and premium materials of Mack cabs create an interior that's as comfortable as it is functional.

Mack-Exclusive Seats

Our ergonomic, wide-base seats are customizable and improve driver comfort and support, while taking on daily wear and tear.

- Air suspension
- Optional swivel base
- Available options for heating, cooling, and massage
- 30+ feature and fabric combinations

Mack Integrated Parking Cooler

A new optional parking cooler features an integrated design that maintains a comfortable cabin environment without idling the truck's engine, greatly reducing fuel costs.

Home away from home.

We built Mack sleeper cabs with more space than ever before to give drivers plenty of room to get comfortable, rest well, and stay focused on the road.

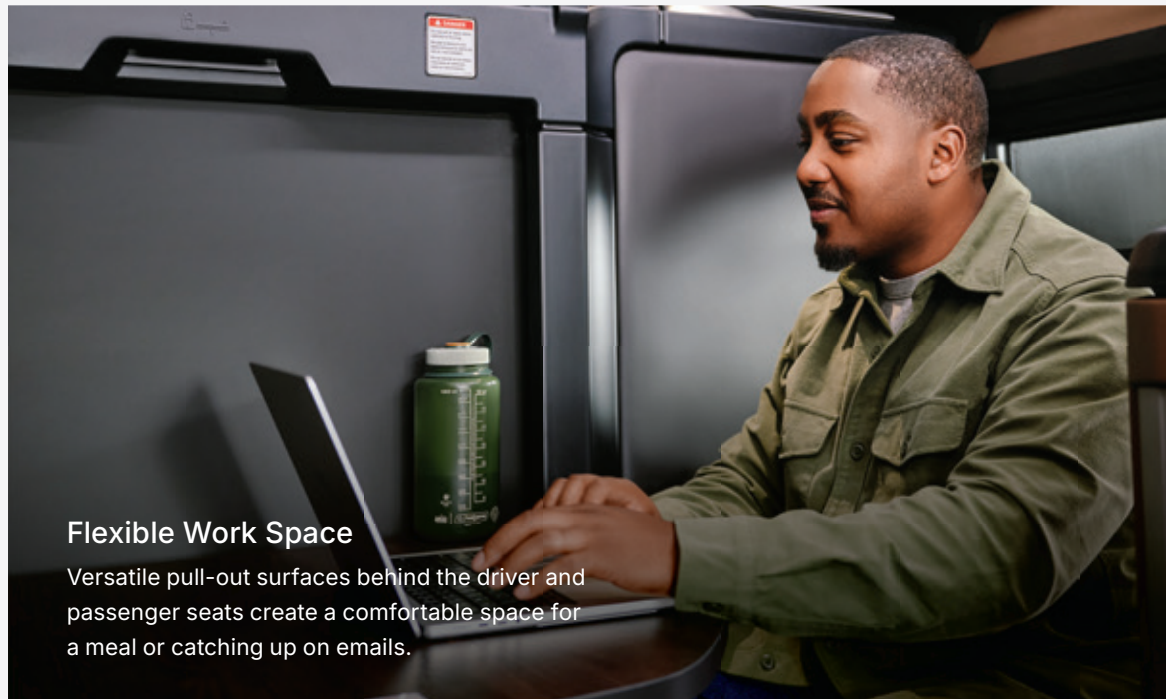

Amenities

Opt for a spacious refrigerator or choose from prep kits—including power outlets—for a refrigerator, microwave or flat-screen TV. Add cup holders with integrated storage above the bottom bunk for easy access to everything.

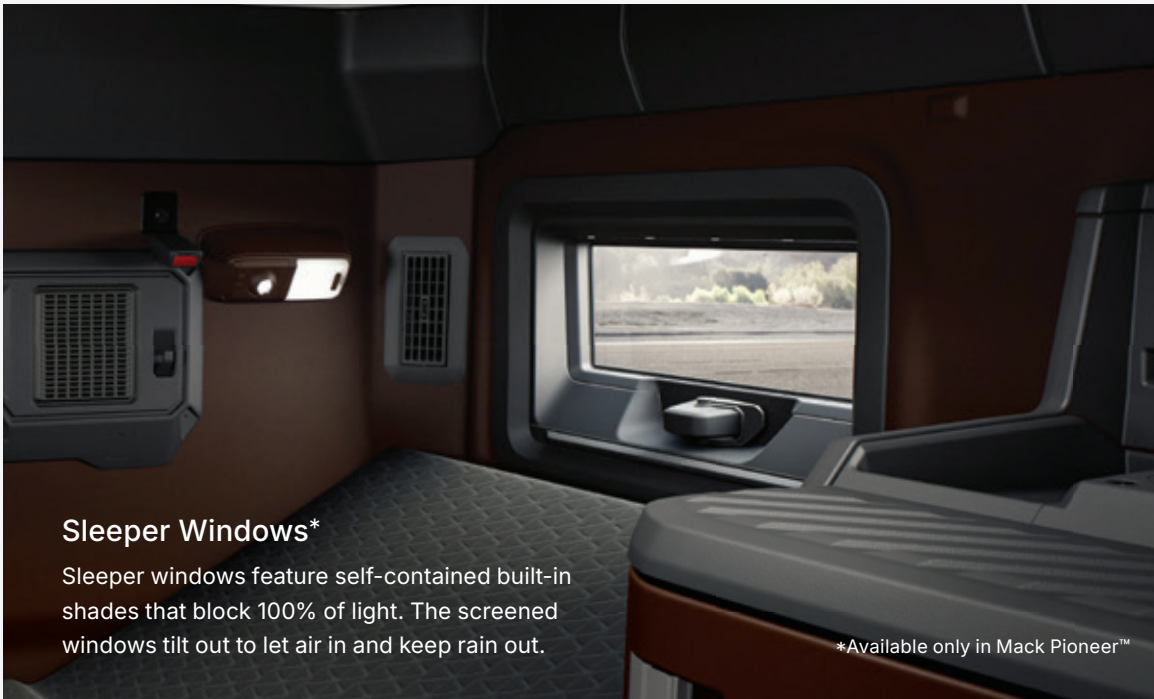

Sleeper Lighting

Dimmable lights around the perimeter of the driver environment, bunk task light, reading lights, and overhead lights are all bright, long-lasting LED.

Flexible Work Space

Versatile pull-out surfaces behind the driver and passenger seats create a comfortable space for a meal or catching up on emails.

Sleeper Windows*

Sleeper windows feature self-contained built-in shades that block 100% of light. The screened windows tilt out to let air in and keep rain out.

*Available only in Mack Pioneer™

Sleeper Storage

Mack sleeper cabins offer cabinets, wardrobes, and shelving to keep the living space organized, functional, and ready to work.

Sleeper Control Panel

Access power outlets and USB ports and control the sleeper stereo, interior lighting and high-performing HVAC from one convenient panel. IdleFree® electric APU lets drivers run the HVAC system without idling, keeping fuel costs down.

Bunk and Storage Configurations

Mack Pioneer™ 44-Inch Sleeper

- Single Bunk with lower storage

Mack Pioneer™ 64-Inch Sleeper

- Single Bunk with lower storage

Mack Pioneer™ 76-Inch Sleeper

- Single Bunk with lower storage

Mack Pioneer™ 76-Inch High-Roof Sleeper

- Single Bunk with lower storage
- Single Bunk with upper and lower storage
- Double Bunk with upper and lower storage

Mack Anthem® 44-Inch Sleeper

- Single Bunk with lower storage

Mack Anthem® 64-Inch Sleeper

- Single Bunk with lower storage

Mack Keystone™ 44-Inch Sleeper

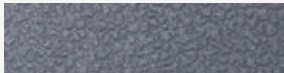

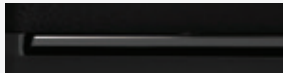

- Single Bunk with lower storage

Mack Keystone™ 64-Inch Sleeper

- Single Bunk with lower storage

INTEGRATED UPTIME. MAXIMUM ROAD TIME.

Mack's exclusive uptime and productivity solutions combine intelligent software, predictive analytics, driver assist technologies and more to help you keep your trucks—and your business—moving forward.

Mack Integrated Uptime

Harness the power of intelligent operating and maintenance systems that reduce repair times and streamline the service processes.

Over-The-Air (OTA) Updates

Upgrade vehicle software and parameters to deliver all the latest improvements, 24/7.

GuardDog® Connect

Automatically monitors your truck to coordinate the right support solution and service scheduling—all while you're still on the job.

Mack OneCall

Our team at Mack OneCall provides 24/7 full-service support with a network of experts to keep you and your drivers informed and connected ahead of any problem.

Mack OneCall: 1-800-866-1177

Mack ASIST

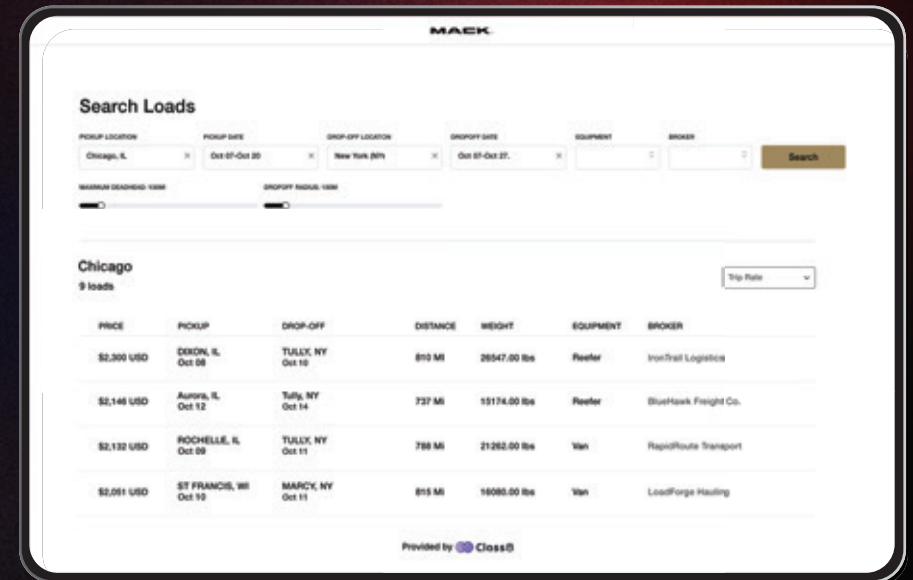

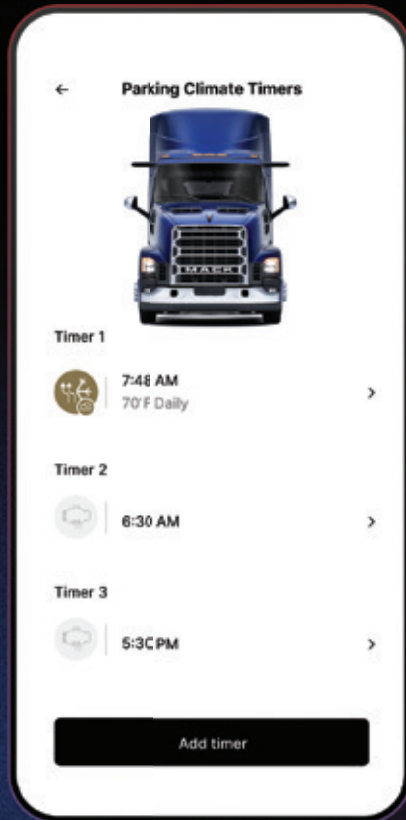

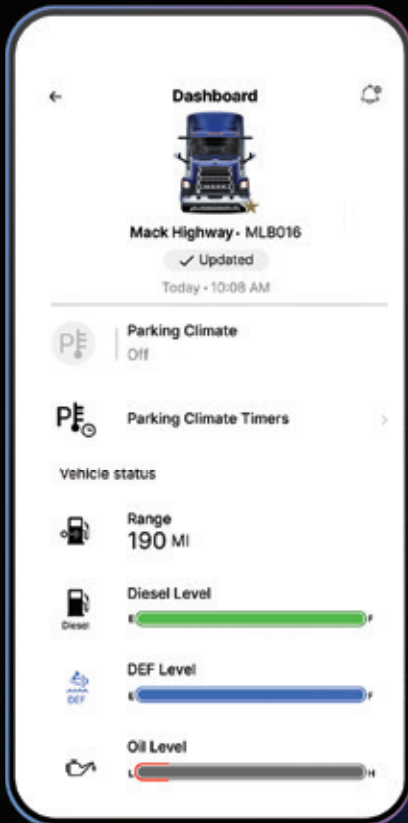

For on-the-go coordination, Mack ASIST assembles consistent, complete and professional estimates of service recommendations.

8 Fleet Software Updates Complete

2 Fleet Software Updates Available

 "Diagnostics look good, we'll go ahead and run the update this afternoon."

New MyMack Mobile App

The industry-leading MyMack Mobile App places on-the-go information and control of your truck right in the palm of your hand. Remotely control and schedule climate functions, check your fuel levels, and monitor other key performance indicators, all from one convenient location.

iPhone

Mack Load Finder

Load Finder connects available capacity with the right freight in real time, helping you move what matters and keep every mile earned.

Mack Protect™ Safety Suite

Combining radars and cameras to detect potential hazards, our proprietary safety platform, Mack Protect™, provides alerts to the driver, and if necessary, it intervenes with braking, engine control, and even corrective steering to help avoid collisions.

- ADAPTIVE CRUISE CONTROL
- AUTOMATIC EMERGENCY BRAKING
- FRONTAL COLLISION AND ROLLOVER PROTECTIVE ACTIONS
- FORWARD COLLISION WARNING
- FORWARD AND SIDE PEDESTRIAN DETECTION
- LANE CHANGE AND BLIND SPOT SUPPORT

- LANE DEPARTURE WARNING
- LANE KEEPING ASSIST
- OVERSTEER GUIDANCE
- ROAD SIGN ID
- SIDE CURTAIN AIRBAGS
- TRAFFIC STOP AND GO

SUPPORT AT EVERY TURN.

Behind every Mack truck stands a human infrastructure dedicated to responsive service, continuous support, and the personal attention that turns potential problems into minimal disruptions.

Mack Support

24/7 Roadside Assistance

When problems occur, Mack OneCall is there. 24/7 access to technical support to keep fleet managers and drivers informed, connected, and moving.

Certified Uptime Dealers

Mack's Certified Uptime Dealers, a large portion of our dealer service network, are able to identify quick fixes and put your truck in the fast lane for completion.

Investing In Service

The Mack Dealer Network is committed to quick, quality service. That's why our dealers have invested nearly \$600 million into expanding our number of locations, modernizing facilities, and improving access to parts.

Family Experience

Whether you're behind the wheel or managing the fleet, when you run with Mack, you're part of the family. That means you'll always get personalized attention and the support you need.

YOUR BUSINESS. ON YOUR TERMS.

You know your business better than anyone.
So Mack Business Services offers you dedicated
experts and flexible terms to help you get into a
Mack and get out on the road.

Mack Business Services

Mack Financial Services

Mack offers comprehensive financial services that include customized loans, leases and payment plans. You choose the terms, then Mack comes up with the payment plan and coverage that works for you, so you can build your business.

Mack Leasing System

Mack offers full-service leasing and rental services backed by our growing association of MLS dealer members. Whether you're looking to lease your fleet, rent a truck or outsource your maintenance, Mack has a variety of solutions to meet your needs.

Warranty and Protection Plans

Mack offers the most flexible warranty program in the industry. Whether you need a standard warranty or a premium protection plan, Mack can customize a plan to meet your specific business requirements.
