ALL ROADS. ALL JOBS.

The all-new Mack Keystone™ sets the New Standard of versatility in vocational trucking. With the unparalleled durability and reliability you've come to expect from Mack, it's designed to answer every jobsite, highway, and heavy-duty task with confidence. Built as a key team player for those who take pride in getting the job done, it delivers shift after shift, ensuring the dependability needed to conquer any job while providing the performance your operation demands.

HARD WORK'S HARDEST WORKERS.

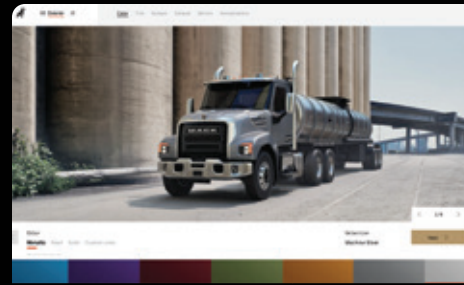

This is a workhorse built for the toughest terrain: from farm and oil fields to logging sites and construction zones. Engineered for drivers who take pride in their work across dairy operations, concrete paving, and farming, it's the truck that answers every call.

PURPOSE-BUILT
CAB CONFIGURATIONS.

THIS IS THE NEW STANDARD.

Cab Configurations

Explore paint colors and exterior options through Mack Trucks configurator at: build.macktrucks.com

Axle-Forward Day Cab
Roof fairing available in 12'6" or 13'6" overall height

Axle-Forward 44-Inch Sleeper
Roof fairing available in 13'6" overall height

Axle-Forward 64-Inch Sleeper
Roof fairing available in 13'6" overall height

Axle-Back Day Cab
Roof fairing available in 12'6" or 13'6" overall height

Axle-Back 44-Inch Sleeper
Roof fairing available in 13'6" overall height

Axle-Back 64-Inch Sleeper
Roof fairing available in 13'6" overall height

Axle Configurations*

6x4

8x4 Pusher

8x6

*Available for both Axle-Forward and Axle-Back cabs.

MANEUVER EVERY TURN, TERRAIN, AND TRAIL.

THIS IS THE NEW STANDARD.

Versatility

In the world of vocational trucking, versatility isn't optional, it's essential. Keystone™ delivers unmatched adaptability across highway and vocational applications, making it the all-purpose backbone of any fleet. With configurable solutions engineered to excel in every segment, it's the workhorse that conquers whatever the job demands.

Higher Ground Clearance

Vocational tractors routinely face rutted dirt roads, rocky terrain, and unpredictable jobsite conditions. Keystone is built with higher ground clearance and rugged off-road capability to help drivers tackle these obstacles and prevent damage across demanding work environments.

Available Mack® Command Steer

This optional feature delivers precise handling on everything from icy highways to rutted dirt roads, with customizable settings that adapt to any kind of ground conditions.

MaxRide™ Air Suspension

Advanced suspension utilizes electronically controlled rear suspension with eight tuned airbags to provide the most stable ride on a Mack truck, no matter how rough the landscapes get.

OUTHAUL.
OUTWORK.
OUTLAST.

THIS IS THE NEW STANDARD.

Durability

Across highway and vocational segments, obstacles aren't the exception. They're the expectation. Keystone™ represents the next era of heavy-duty versatility, where every design element works to conquer the demanding terrain and conditions that come with every job.

1. ImpactShield Windshield

With 2x the impact resistance and 5x the scratch resistance, this lighter windshield option will reduce operator total cost of ownership by extending service life.

2. Flared Frame Rails

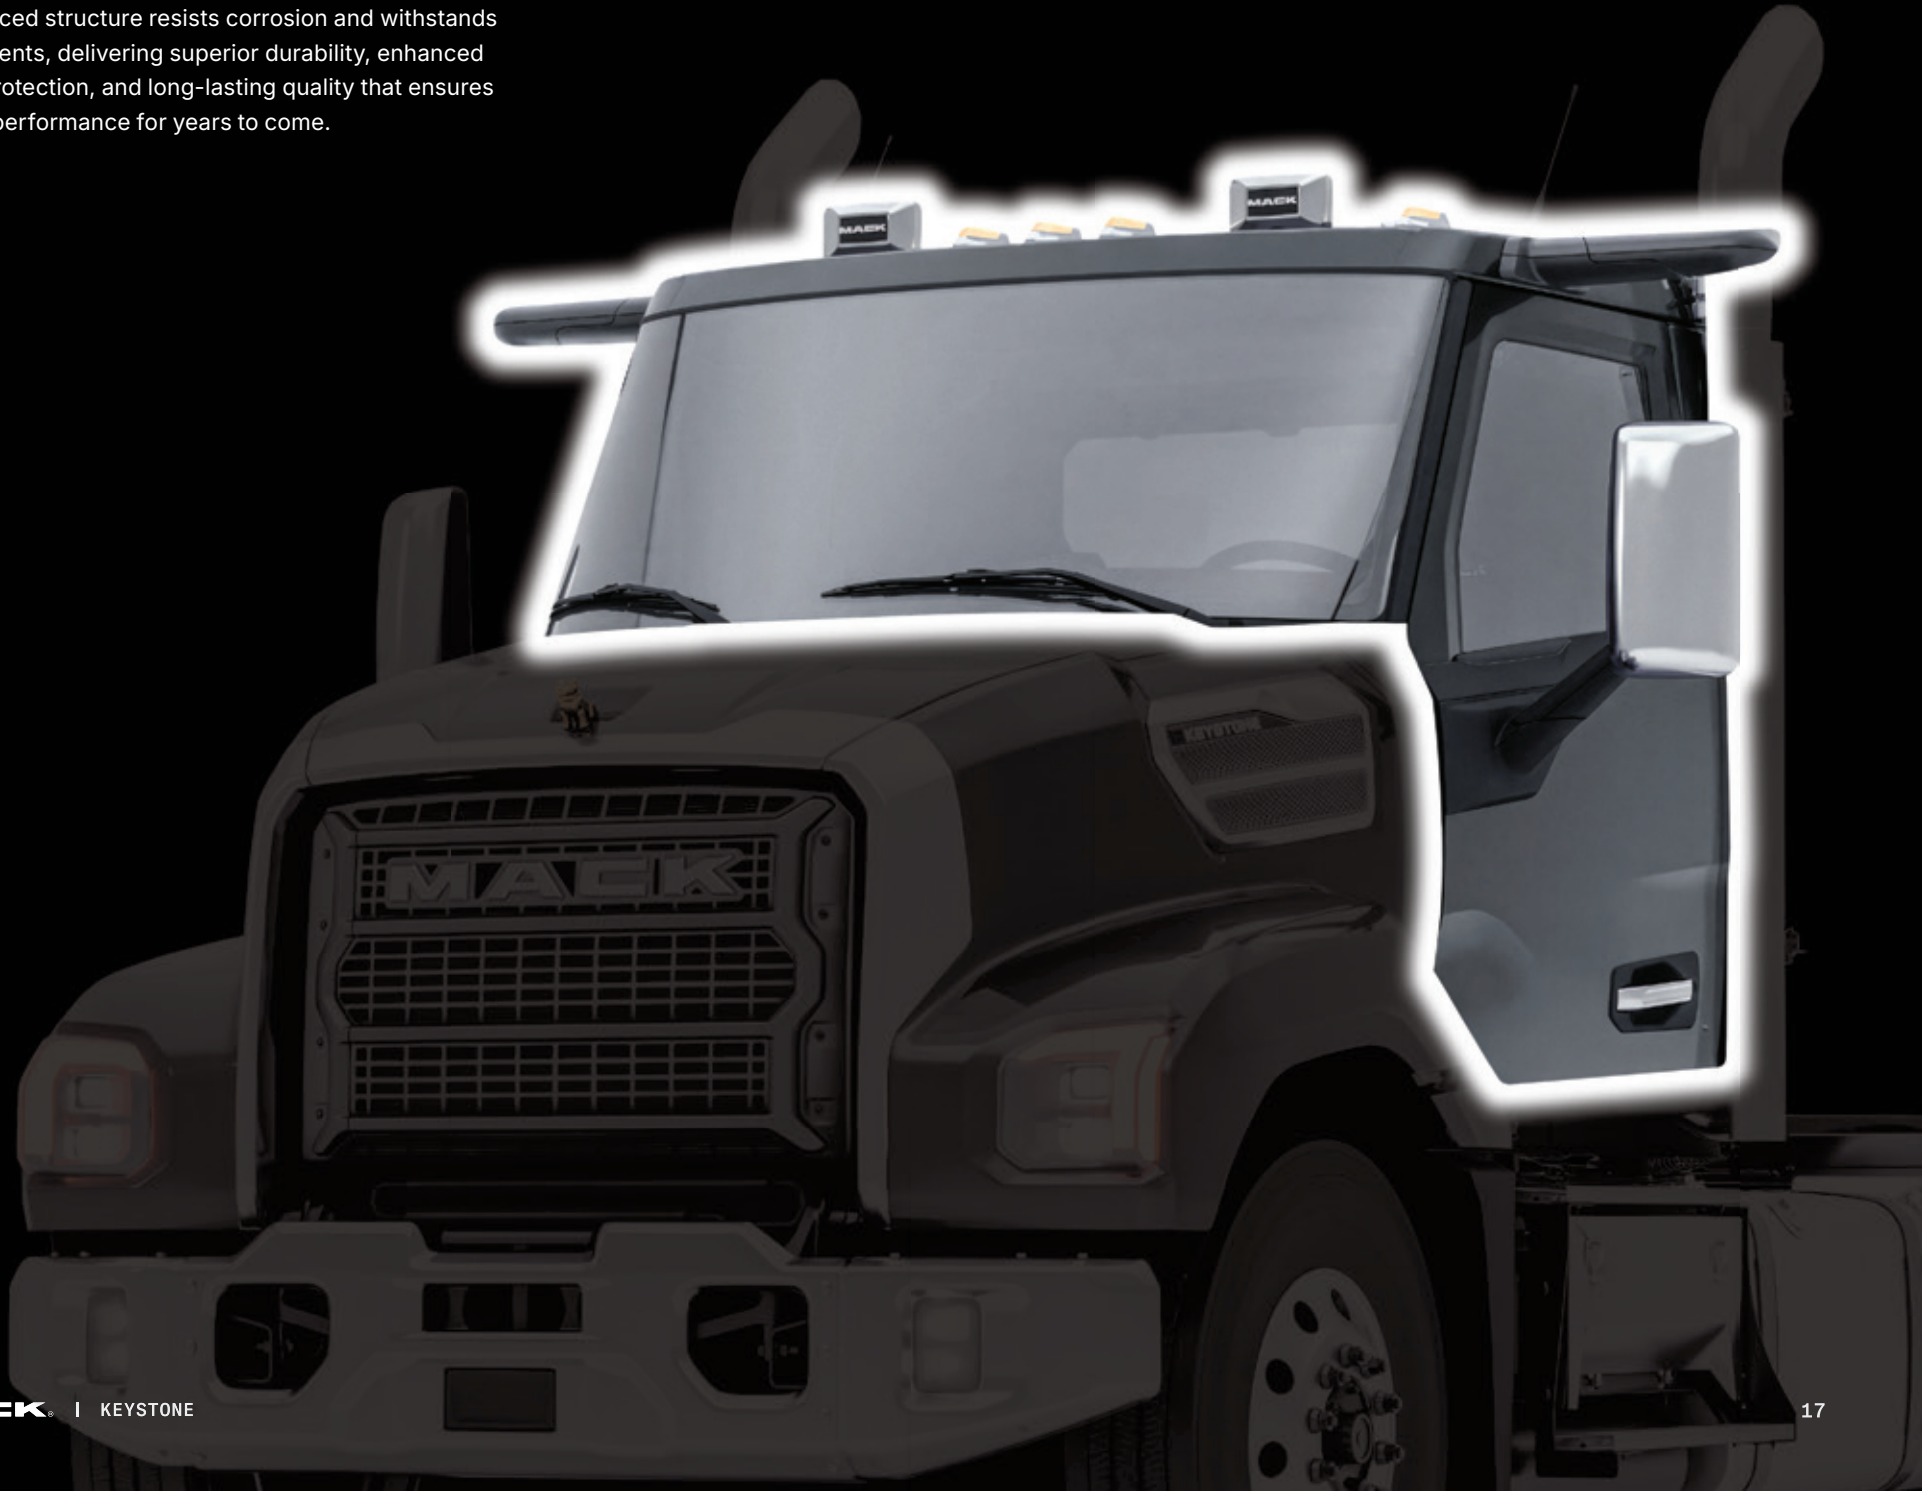

Heavy-duty frame rails are engineered for max payload demands and designed to drop the engine in the event of a collision, helping enhance overall safety.

3. Construction-Grade Frame

A battle-tested foundation that brings strength and durability to handle extreme loads.

All-New Galvanized Steel Cab

A reinforced structure resists corrosion and withstands the elements, delivering superior durability, enhanced safety protection, and long-lasting quality that ensures reliable performance for years to come.

WHERE POWER MEETS PRECISION.

THIS IS THE NEW STANDARD.

Performance

Vocational success demands power that pays for itself. With the MP[®]13 engine delivering up to 6% better fuel economy than previous Pinnacle models, it's a pure Mack example of performance engineered for efficiency.

Available Cab Side Deflectors

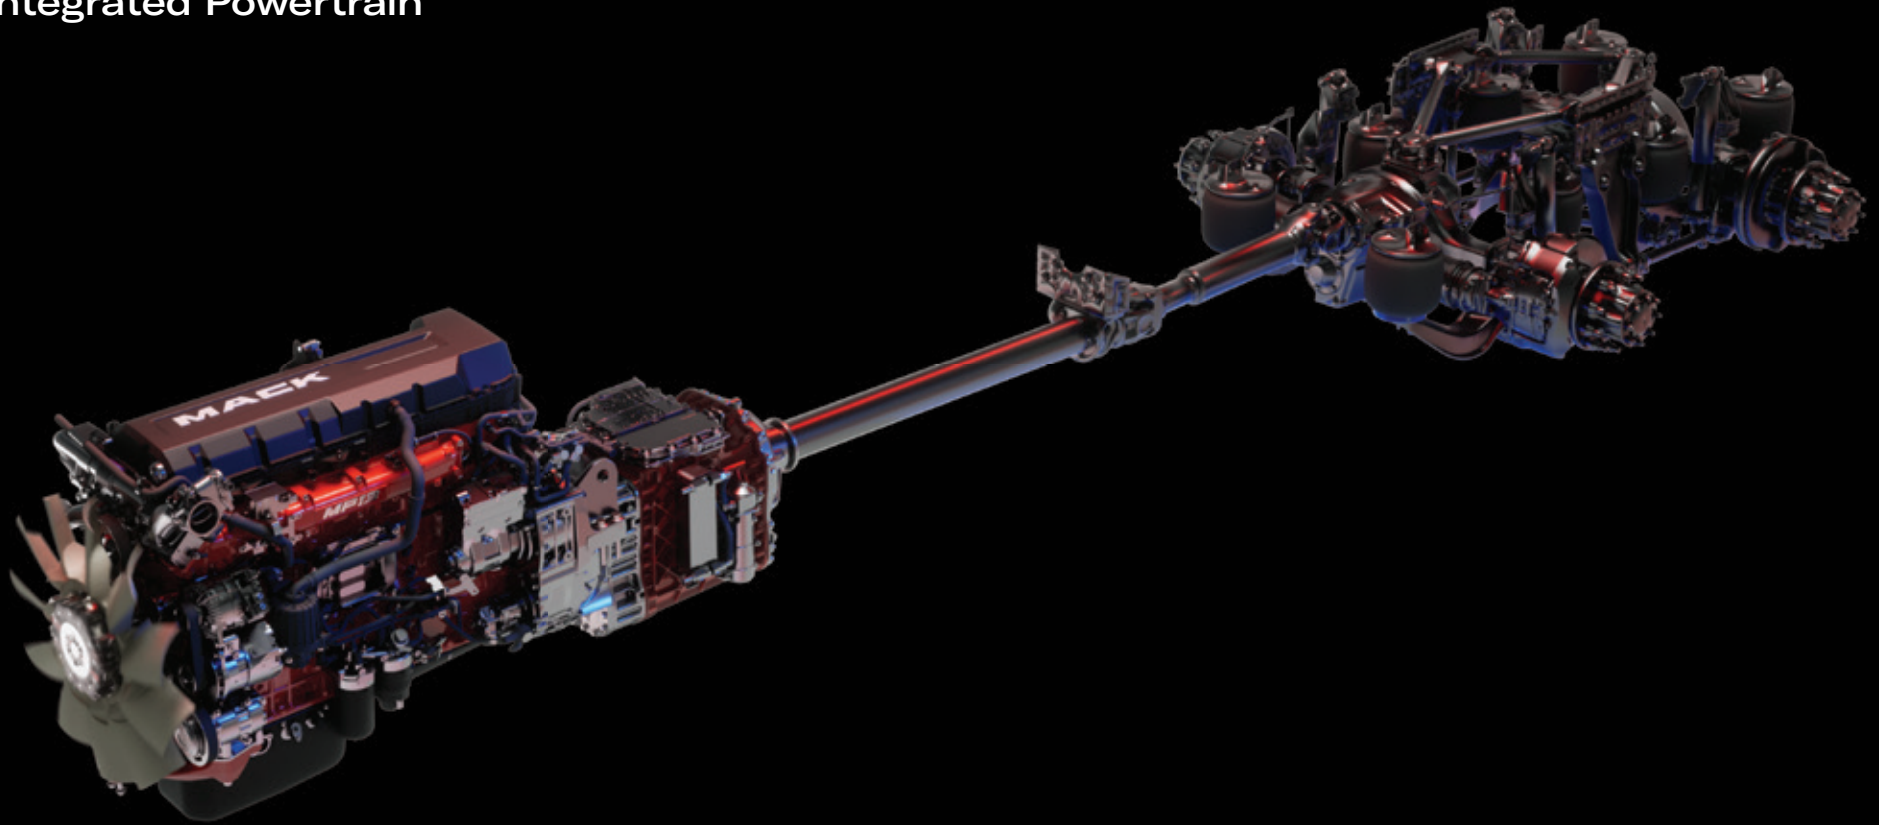

Streamlined design improves performance by enabling smoother air flow from the cab to the trailer.

9 Inches Wider Cab at B-Pillar

9 inches of additional width streamlines airflow and creates a spacious driver environment.

Integrated Powertrain

MP¹³ Engine

540 Max Horsepower

1,950 lb-ft Max Torque

Up to 6% improved fuel efficiency*

Proven Mack durability

25% stronger PowerLeash™ engine braking

R100 and B20 fuel compliant

New Mack *mDRIVE*™ Transmission

12-, 13-, or 14-speed configurations

Optimized for vocational applications

Reduces driver fatigue on demanding routes

30% faster gear shifting

Optional Creep Mode for low-speed maneuverability

Key Benefits

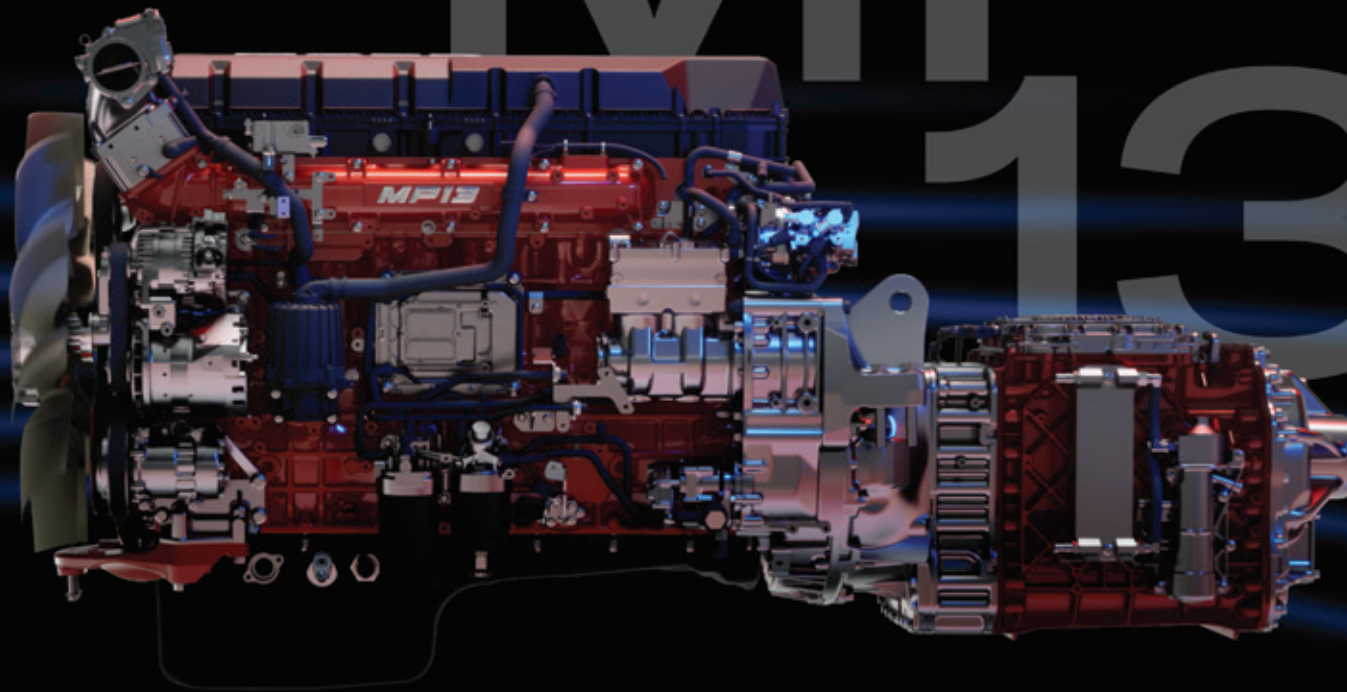

Optimized shift mapping for vocational work

Precision shifting based on load and grade

Reduced maintenance complexity

Single-source warranty coverage

*On Mack Keystone™ compared to previous Mack Pinnacle™. Depending on duty cycle.

Greater Power

With the potential to deliver up to 540 hp for operational efficiency and up to 1,950 lb-ft of torque for demanding applications, the MP¹³ engine comes in various ratings to power any haul.

Up to 6% Greater Fuel Efficiency

Engineered for exceptional fuel economy, the MP¹³ engine and *mDRIVE*[™] transmission deliver up to 6% better efficiency than previous Pinnacle models.

Up to 30% Faster Gear Shifting

mDRIVE[™] utilizes updated electronics and improved valves to deliver up to 30% faster gear shifting across any terrain, maximizing efficiency while reducing driver fatigue.

HOW A CABIN BECOMES A SANCTUARY.

THIS IS THE NEW STANDARD.

Comfort

Recognizing that driver comfort directly impacts performance, every element of the Mack Keystone™ cab has been thoughtfully engineered with driver input to create a functional, customizable workspace where long days on demanding jobsites and remote terrain translate to sustained productivity.

Spacious Interior Cab

Keystone breaks new ground for an interior cabin that is 9 inches wider than previous Pinnacle models.

Flat-Bottom Steering Wheel

A flat-bottom wheel allows more room where it counts. Smart steering wheel buttons access infotainment, cruise control, CoPilot™ Display navigation, headlight and marker light interrupter switches, and phone controls.

Stalk-Located *mDRIVE*™ Controls

Positioned for easy access, the shifter allows for smooth, intuitive gear changes without taking hands off the wheel.

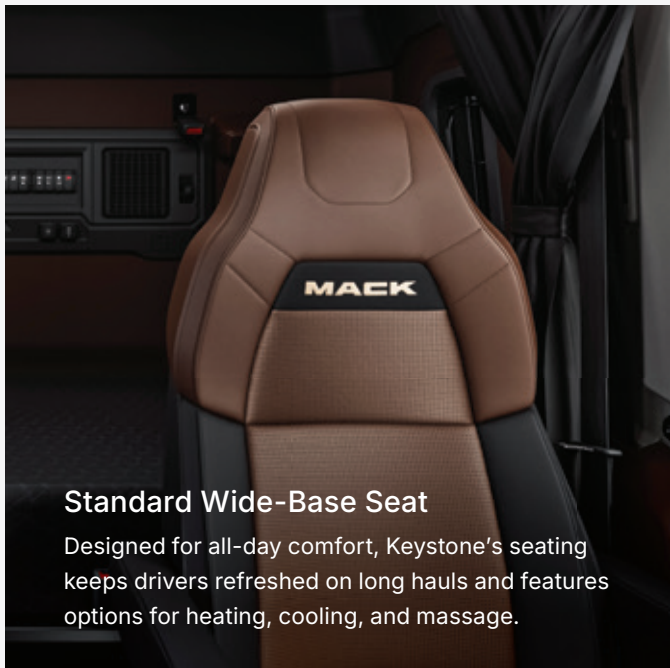

Mack Co-Pilot™ Display

A new 12-inch digital instrument cluster and a 9-inch infotainment display option offer critical information and intuitive navigation.

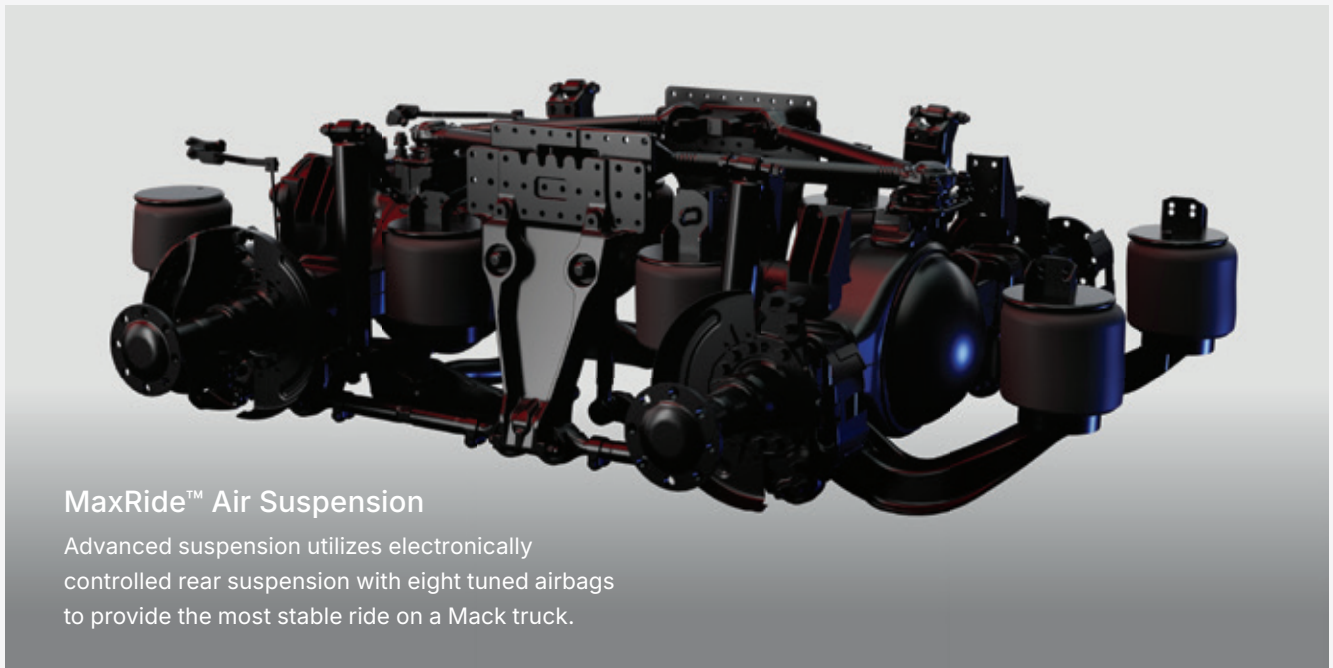

Available Mack® Command Steer

Command Steer delivers up to 85% reduction in steering effort, giving drivers precise control in all conditions with customizable settings that boost productivity and comfort behind the wheel.

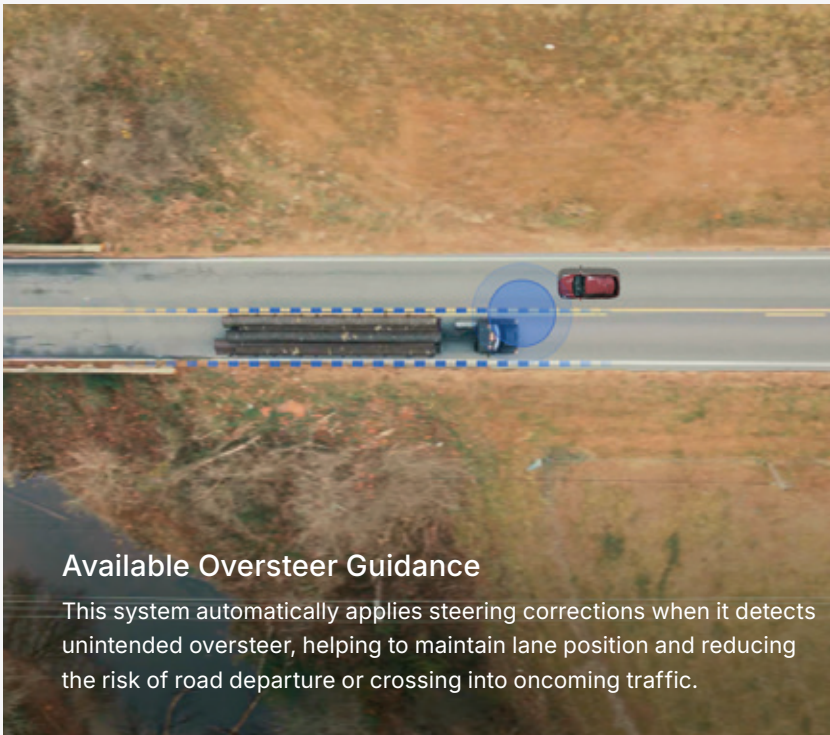

Standard Wide-Base Seat

Designed for all-day comfort, Keystone's seating keeps drivers refreshed on long hauls and features options for heating, cooling, and massage.

MaxRide™ Air Suspension

Advanced suspension utilizes electronically controlled rear suspension with eight tuned airbags to provide the most stable ride on a Mack truck.

Available Oversteer Guidance

This system automatically applies steering corrections when it detects unintended oversteer, helping to maintain lane position and reducing the risk of road departure or crossing into oncoming traffic.

On-the-Road Amenities

A spacious interior with an optional reclining bunk gives drivers the comfort they need to feel at home.

Sleeper Windows*

Windows feature self-contained, built-in shades that block 100% of light. The screened windows tilt out to let air in and keep rain out.

Sleeper Control Panel*

Access power outlets and USB ports and control stereo, interior lighting, and high-performing HVAC from one, convenient panel.

*In AF and AB medium sleeper models only

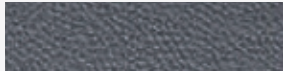

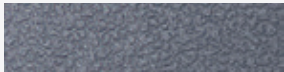

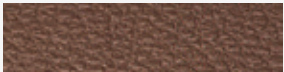

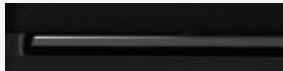

Flexible Work Space

Versatile pull-out surfaces behind the driver and passenger seats create a comfortable space for a meal or catching up on emails.

Customize Your Interior

Mack Keystone™ is built for the way you work, with configurable trim packages, sleeper options, and modular storage solutions—from under-bunk bins to workspace cabinets—that let you create exactly the environment your operation demands.

	Comfort Trim	Preferred Trim	Elite Trim
1. Door Panel	 Dark Airforce Gray	 Dark Airforce Gray	 Canyon Brown
2. Door Panel Accent Trim	 Bold Black	 Light Gun Metal	 Light Gun Metal & Wood Grain
3. Steering Wheel	 Bold Black Rubberized Foam	 Bold Black Leather & Bold Black Perforated Leather	 Bold Black Leather & Canyon Brown Perforated Leather
4. Dash Topper	 Bold Black	 Dark Airforce Gray	 Canyon Brown
5. Dash Highlight Accent	 Gloss Black	 Satin Finish Metallic	 Satin Finish Metallic & Wood Grain
6. Interior Panels & Cabinets	 Dark Airforce Gray	 Dark Airforce Gray	 Canyon Brown

WHERE THE ROAD ENDS, SAFETY CONTINUES.

THIS IS THE NEW STANDARD.

Safety

Keystone™ redefines safety with advanced collision mitigation technology, rugged construction, and intelligent features designed to protect drivers in off-road conditions, on remote jobsites, and the demanding environments where they work every day.

Available Mack Protect™ Safety Suite

Combining radars and cameras to detect potential hazards, the Mack Protect™ System provides alerts to the driver, and if necessary, it intervenes with engine control, braking, and even corrective steering to help avoid collisions.

Forward and Side Pedestrian Detection

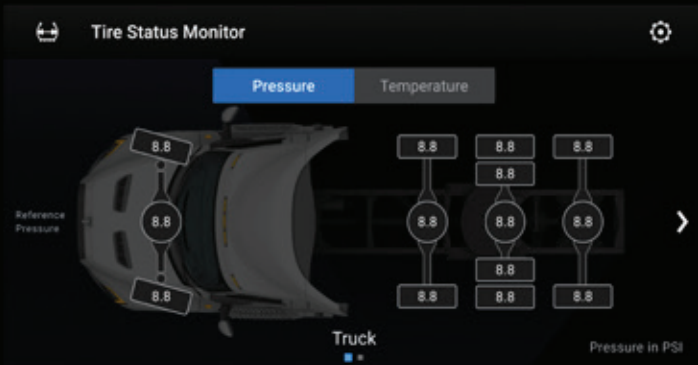

Navigate both cities and jobsites safely with optional radar technology that detects and alerts for vulnerable road users like pedestrians, motorcyclists, and cyclists.

Lane Change Support

From crowded highways to bustling urban environments, blind spots are inevitable. Lane Change Support utilizes side radars to detect and alert when objects are next to the vehicle.

Lane Keep Assist

In tandem with Mack Protect™, Keystone™ now offers Lane Keep Assist, which helps keep your vehicle centered in its lane when Adaptive Cruise Control is active. If you start to drift, the LKA uses electronic steering paired with a forward camera to automatically attempt to steer back into your lane while providing haptic feedback and dashboard warnings.

Tire Pressure Monitor System

A user-friendly interface displays tire pressure and temperature, alerting the driver to help prevent tire wear and tear.

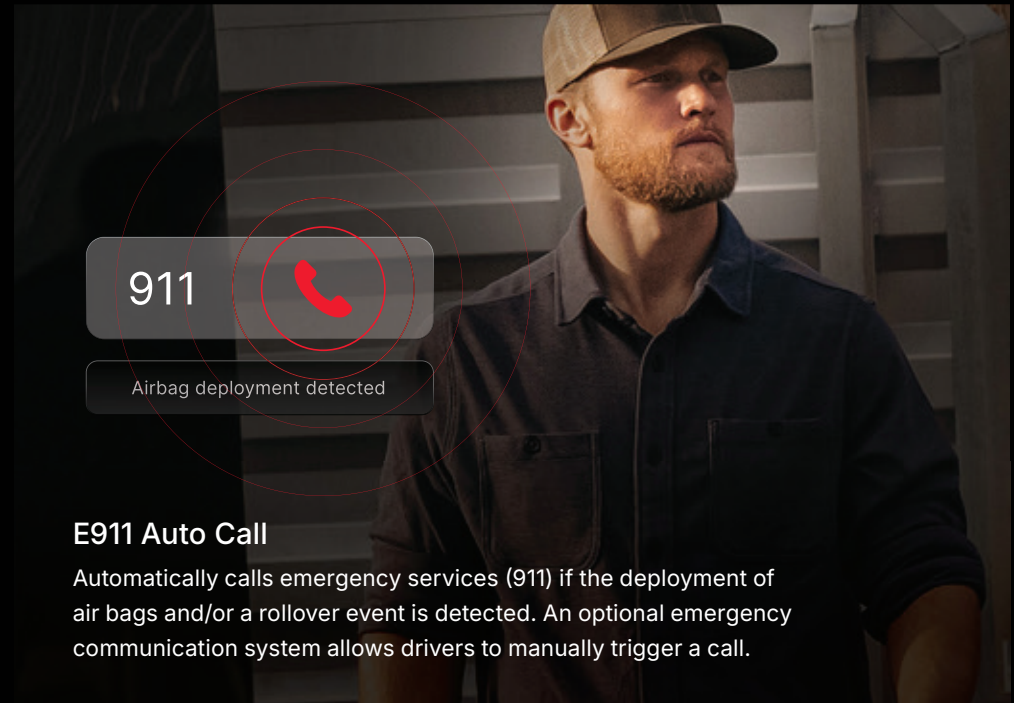

All-New Steel Cab

Built for long-term durability and crash protection, the fully welded high-strength steel cab is designed to keep drivers safe and secure.

Digital Mirror System

This optional feature combines dual camera wings and interior high-resolution digital displays to provide clear, real-time views that replicate traditional mirrors for enhanced visibility and safety.

E911 Auto Call

Automatically calls emergency services (911) if the deployment of air bags and/or a rollover event is detected. An optional emergency communication system allows drivers to manually trigger a call.

Additional Safety Features

Electropneumatic Braking System

Air pressure adapts to different driving conditions, providing smoother, more consistent braking.

Frontal Collision Rollover Support

Automatically shuts down engine, unlocks doors, and turns on interior lights to help vehicle occupants safely exit the vehicle after a rollover incident or frontal collision.

Front and Side Curtain Airbags

Frontal airbag and available side airbags provide an added layer of protection in the event of a collision or a rollover.

Increased Visibility

A new ImpactShield Windshield improves the driver's line of sight and awareness.

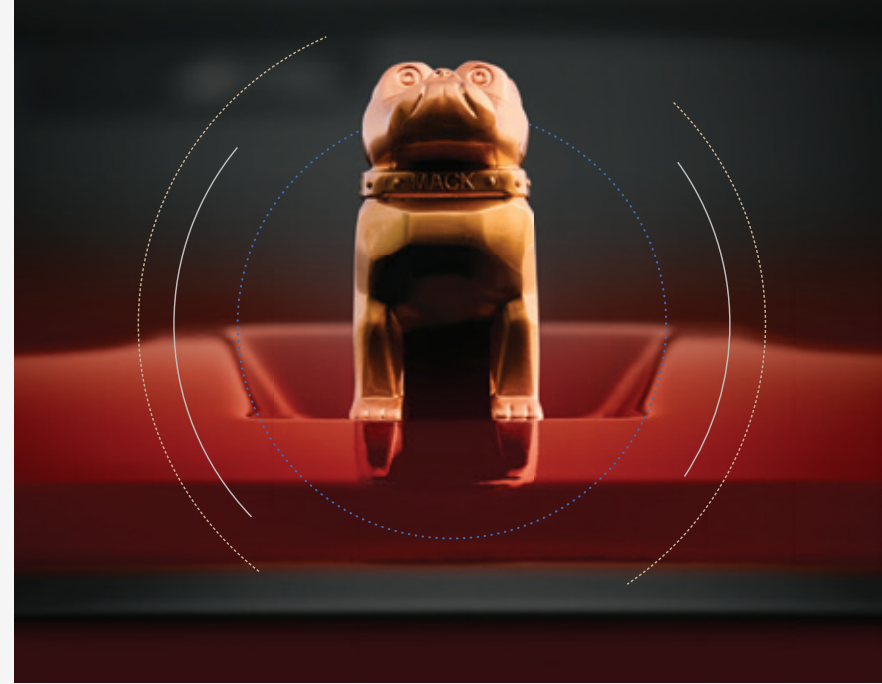

Flared Front Frame Rails

These heavy-duty frame rails were designed to lower the engine mounting and allow the engine and transmission to break away under the cab in a forward collision, providing great protection for drivers in the event of a collision.

HOW REMOTE WORK STAYS PRODUCTIVE.

THIS IS THE NEW STANDARD.

Mack Integrated Uptime

Optimize Mack Keystone™ with a connected suite of smart, responsive productivity tools. 5 years of Integrated Uptime included with truck purchase.*

Over-The-Air Updates

Updated vehicle software and parameters to deliver all the latest improvements, 24/7.

GuardDog® Connect

Automatically monitors your truck and alerts fleet managers to coordinate the right support, solutions, and service scheduling, all while you're still on the job.

Mack OneCall

When problems occur, Mack OneCall, conveniently located in Greensboro, North Carolina, is there with 24/7 full-service support with a network of experts to keep you and your drivers informed and connected ahead of any problem.

Mack ASIST

For on-the-go coordination, Mack ASIST assembles consistent, complete, and professional estimates of service recommendations.

*See dealer for details.

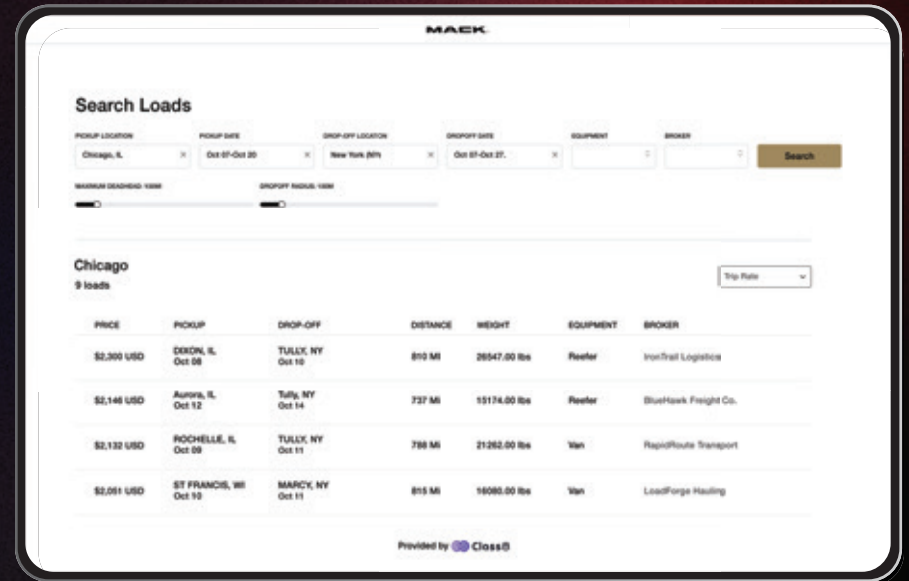

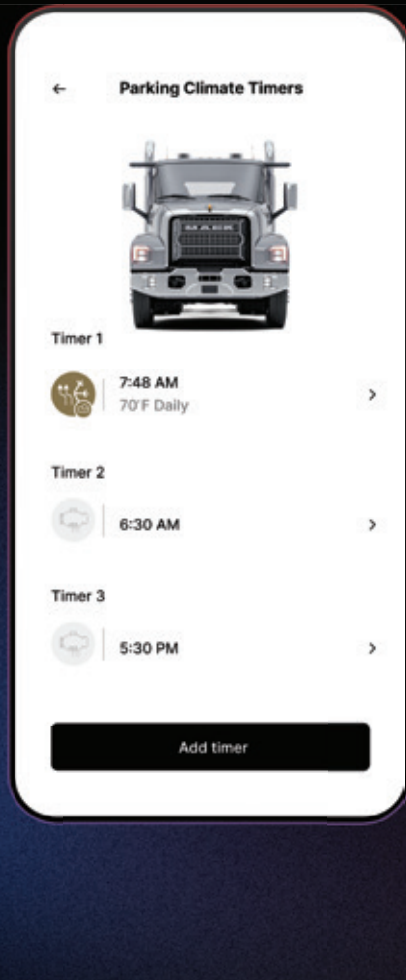

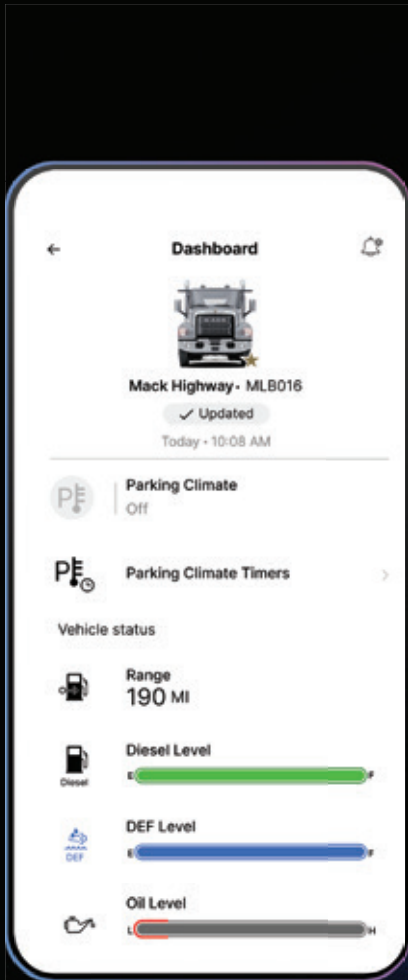

8 Vehicle Software Updates Complete

2 Vehicle Software Updates Available

"Diagnostics look good, we'll go ahead and run the update this afternoon."

New MyMack Mobile App

The industry-leading MyMack Mobile App places on-the-go information and control of your truck right in the palm of your hand. Remotely control and schedule climate functions, check your fuel levels, and monitor other key performance indicators, all from one convenient location.

Download the MyMack Mobile App

Android

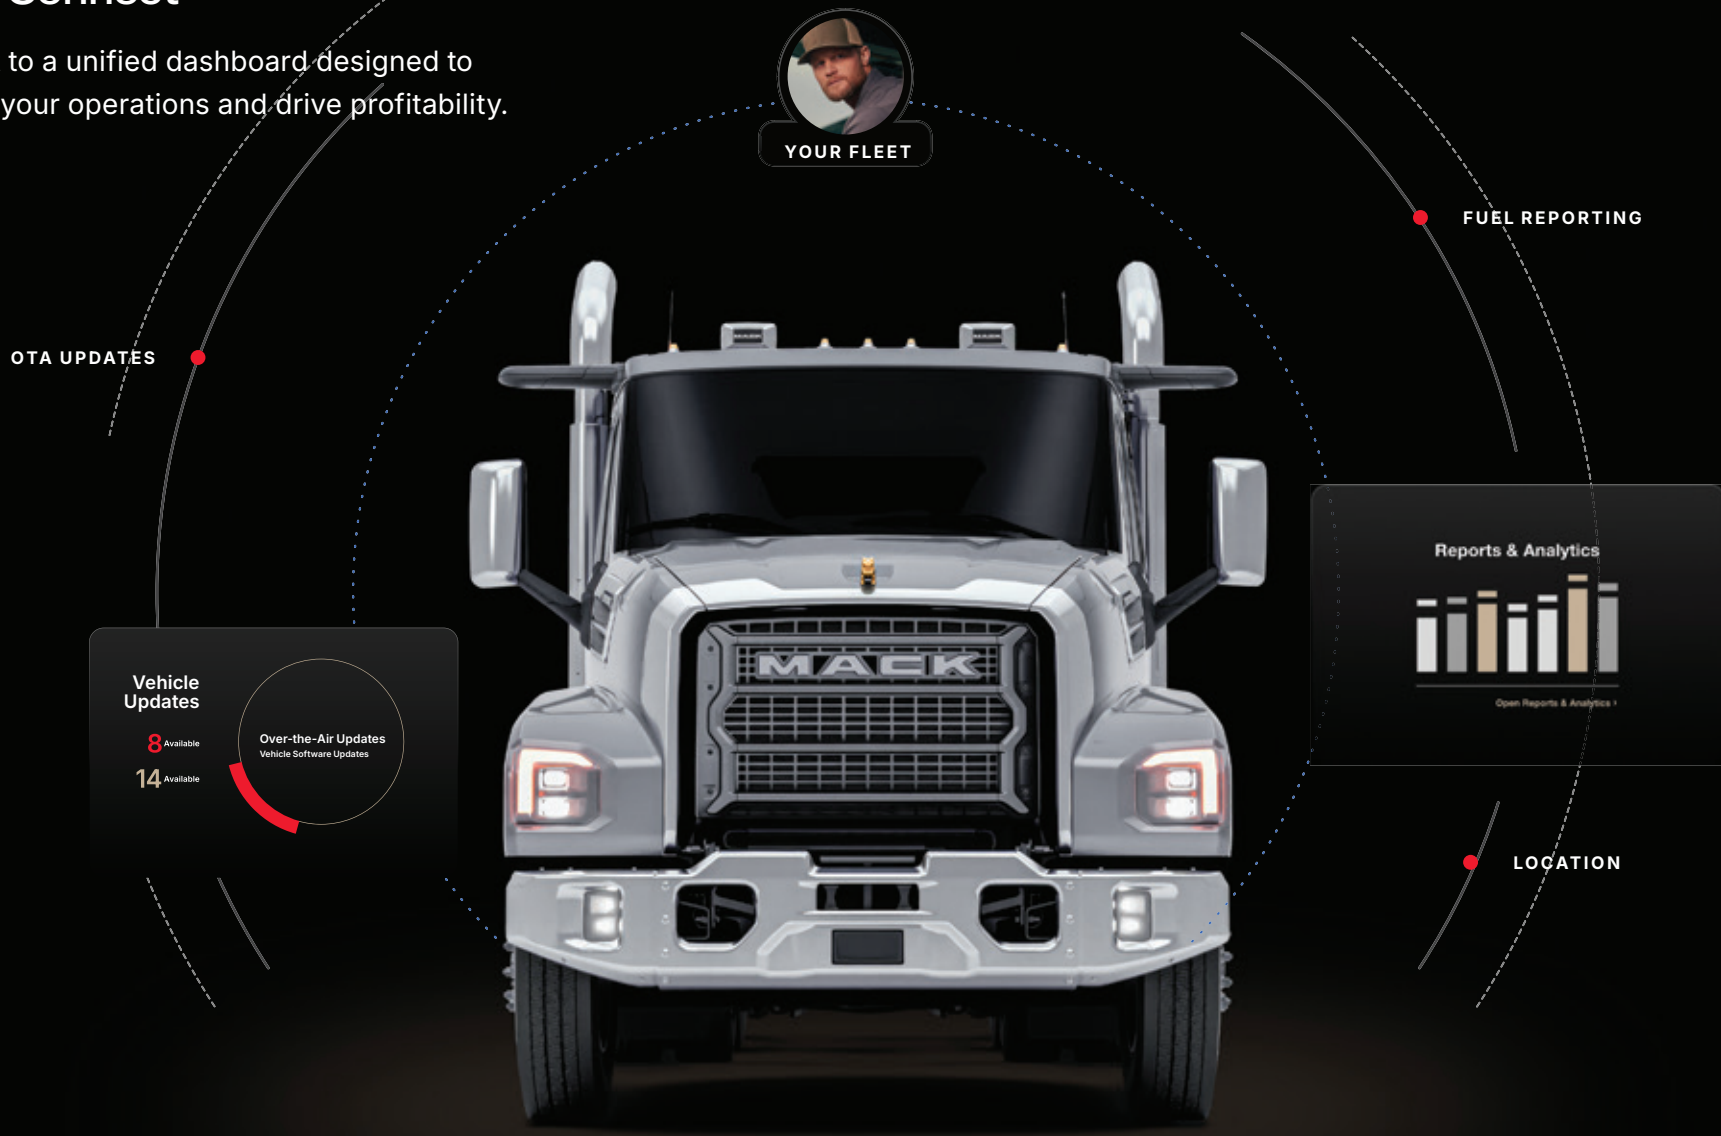

iPhone

Mack Load Finder

Load Finder connects available capacity with the right freight in real time, helping you move what matters and keep every mile earned.

Mack Connect

Connect to a unified dashboard designed to simplify your operations and drive profitability.

Track Performance

Use location data to monitor your truck's position history and location in real time and analyze your routes.

Maximize Uptime

Instantly access truck parameter and fault code information to address issues and get your vehicle back on the job quickly.

Simplify Daily Operations

The integrated dashboard is your unified hub to monitor fleet data across a full suite of integrated truck features.

Increase Efficiency

Track fuel usage and visualize operating parameters such as road speed settings across your entire fleet in a single hub.

THE NETWORK
THAT DRIVES US.

THIS IS THE NEW STANDARD.

Mack Support

Behind Keystone stands a human infrastructure dedicated to responsive service, continuous support, and the personal attention that turns potential problems into minimal disruptions.

24/7 Roadside Assistance

When problems occur, Mack OneCall, conveniently located in Greensboro, North Carolina, is there with 24/7 full-service support with a network of experts to keep you and your drivers informed and connected, should you have a problem.

Certified Uptime Dealers

Mack's Certified Uptime Dealers, a large portion of our dealer service network, are able to identify quick fixes and put your truck in the fast lane for completion.

Investing In Service

The Mack Dealer Network is committed to quick, quality service. That's why our dealers have invested nearly \$600 million into expanding our number of locations, modernizing facilities, and improving access to parts.

Family Experience

Whether you're behind the wheel or managing the fleet, when you run with Mack, you're part of the Mack family. That means you'll always get the personalized attention that you need to stand out and deliver.
